

BOSS THE LOTTO

BETS

Bet cost: \$0.60, \$0.70, \$0.80, \$0.90, \$1.00, \$2.00, \$3.00, \$4.00, \$5.00, \$7.50 or \$10.00
The amount bet for each game is displayed at the top right-hand side of the screen.

DESCRIPTION

To play Boss the Lotto, simply begin picking balls. You can touch each ball individually, or you can swipe multiple balls at a time. Good balls will reveal cash symbols. Once you have selected a good ball, the 'cash out' button is enabled.

From this point on, you will be able to cash out after each good ball you select.

There are 6 'black' balls. Selecting one of these will end the game and lose your existing prize.

HOW TO PLAY

- Select your play amount by clicking on the "+" or "-" buttons.
- Click on **PLAY** or **BUY** to deduct the ticket cost from the balance and play the game.
- The jackpot shows the maximum amount to be won for that bet.
- The board consists of 49 balls – 43 are 'good' and 6 are bad.
- When you click a ball, what you discover is determined at random
- The ball will revolve – if the ball is good, a revolving currency sign will appear.
- If the ball is bad, a black ball will be revealed. At the same time the six bad balls will be revealed.
- Once the player has chosen at least one good ball, the cash out button will flash. The player can choose to cash out by pressing it or to continue playing by selecting further balls.
- After each good ball is selected, the player can choose to cash out or continue.
- To win the jackpot, the player must select all good balls without selecting any bad ones up to the maximum jackpot.
- At the end of the game, all winnings, if any, will be paid into your lotoquebec.com account.

The full payable is:

| Balls picked | Stake in % of bet |
|--------------|-------------------|
| 1 | 110% |

| 35 | 100000% |
| 36 | 250000% |

CAPPING

Occasionally the operator may introduce a cap to the maximum prize or maximum bet. This may mean that there are a maximum number of symbols that can be found before a player will be automatically cashed out with the max win. This does not impact on RTP, except for a minor positive advantage in the player's favour.

AVERAGE PAYOUT

Boss the Lotto is a chance-based game where the outcome is NOT pre-determined. This means that the players choices are meaningful within the context of the random number generator calculating the odds of a given ball being good or bad.

The player chooses whether to cash out or not at each ball choice after the first good ball has been selected.

The theoretical RTP is thus calculated on the premise that a player is equally likely to cash out or continue after each ball selection. Outcomes rest on randomness, although may be influenced by players' choices

RTP: 94.5%

DEMO PLAY

The Operator's Demo Mode games are a sample of the Play for Real version. They play with the exact same rules and random number generator. Demo Mode versions of games allow you to play for 'fun money' that has no financial value.

GAMING SYSTEM MALFUNCTION

The Operator reserves the right to withhold winnings and void wagers if a Player manipulates the games in a fraudulent manner or the Gaming System itself malfunctions. The definition of such a malfunction extends to an error in the published odds or pay tables, or a game not working in accordance with its published rules.

INTERRUPTED GAMES

If an interrupted game is not completed within 1 day(s), it shall end. Any accumulated winnings that are linked to the interrupted game will be awarded.

Any game in progress for more than 24 hours will be completed and the corresponding prize, if any, will be deposited into the account.

The prizes are paid in accordance with the payout table available on the game interface.

The game features player choices that impact the outcome/return rate (choose to cash in or sue).

The game also includes choices that have no impact on the final result (choice of items to discover).
