There are 5 bosses that can be activated by completing or matching the corresponding number of symbols shown on the meter.

Each boss leads to a level, where the player will fight one of the 5 unique bosses

Defeat the boss by matching symbols to reduce its health. All symbols deal damage (except bonus and free spin symbols). Successfully defeating the boss will award the Jackpot Wheel Feature.

Note: Game progression towards boss features, and within boss features is saved and carried over to the next game, allowing players to continue their progress at a later time. However, game progression is tied to the stake used. This means a player can enter a boss battle by collection symbols from game play with a stake of 1.00, but if they change their stake to 2.00 that game progress will be reset (or resumed to that of their last game played at that stake). After playing with a stake of 2.00, if the player decides to return to the previous stake of 1.00, their prior progress at that stake will be resumed (and their progress at 2.00 saved for later).

**GAMING SYSTEM MALFUNCTION**

The Operator reserves the right to withhold winnings and void wagers if a Player manipulates the games in a fraudulent manner or the Gaming System itself malfunctions.

The definition of such a malfunction extends to an error in the published odds or pay tables, or a game not working in accordance with its published rules.

Malfunction voids all plays and pays.

The prizes are paid in accordance with the payout table available on the game interface.

Any game in progress for more than 24 hours will be completed and the corresponding prize, if any, will be deposited into the account.
