## Wheel Shot Bonus

Triggering the *Wheel Shot Bonus* awards one initial spin of Wheel 1.

Each Wheel slice contains a value, as well as a number of left and right bump arrows.

If Wheel 1 lands on the right arrow, the displayed value is awarded along with one spin of Wheel 2.

If Wheel 1 lands on a field with a left arrow, the displayed value is awarded and the *Wheel Shot Bonus* ends.

Similarly, if the Wheel 2 lands on the right arrow, the displayed value is awarded along with one spin of Wheel 3.

If Wheel 2 lands on a field with a left arrow, the displayed value is awarded along with one spin of Wheel 1.

Play continues in this manner until a spin on Wheel 1 lands on a value with a left arrow, at which point the *Wheel Shot Bonus* ends.

If Wheel 4 lands on the right arrow, a spin of the Bonus Wheel is awarded. After the Bonus Wheel spin concludes, play returns to Wheel 4 and continues in the manner described above.

The bump feature may be awarded up to a maximum of 500 times. If the number of bumps exceeds the maximum limit, play continues on Wheels 1 through 4, but with the bump feature disabled.

In other words, if a Wheel stops on either arrow, play continues to the lower wheel or the bonus ends in the case that the spin occurs on Wheel 1.

## Wheel Bonus

Triggering the *Wheel Bonus* awards one spin of the Bonus Wheel. The indicated value on the slice that the wheel lands on is awarded.

## Rules

Misuse or malfunction voids all pays and plays.

All line win symbols must appear on a played line and on consecutive reels, beginning with the far left reel.

Only the highest winner is paid on each payline. Line wins are multiplied by the bet multiplier on the winning line. Coinciding line wins on different paylines are added.

Bonus wins have been pre-multiplied by the current bet multiplier. Bonus wins are independent from line wins and are added to the total amount paid.

Wild symbol appears on all reels in the base game.

Wins are shown in currency.

The prizes are paid in accordance with the payout table available on the game interface.

In some jurisdictions, regardless of bet size, there is an award cap on any single transaction. A transaction includes the results of any triggered bonus, plus the outcome which launched the bonus. See the payable for details.

If the award cap is reached in the bonus, the bonus ends immediately, even if there are remaining spins.

Any game in progress for more than 30 days will be cancelled, and the corresponding bet will be refunded.

## Additional Information

### Expected Payback

In accordance with fair gaming practices required in most legal jurisdictions worldwide, each and every game outcome is completely independent, except in cases where one spin unlocks a feature for a subsequent spin or series of spins, per the game rules. The odds of getting any particular outcome are always the same.

The odds do not vary based on prior outcomes, bet size, balance size, time of day, day of week, etc. For example, if the top award is won on a given play of the game, the chances of winning the top award on the next play are exactly the same. Likewise, prior losses do not change future odds.

The expected payback reflects the theoretical return across a very large number of plays by numerous players over an extended period of time. The results for any given player over a play session can vary widely from this long-term, expected average in either direction. The fewer the number of games played, the wider the normal variance of actual payback that may be experienced.
