## **Rules**

- The prizes are paid in accordance with the payout table available on the game interface.
- Misuse or malfunction voids all pays and plays.
- All line win symbols must appear on a played line and on consecutive reels, beginning with the far left reel.
- Only the highest winner is paid on each payline. Line wins are multiplied by the coin value on the winning line. Coinciding line wins on different paylines are added.
- Bonus wins are independent from line wins and are added to the total amount paid.
- Scatter wins are independent from line wins and are added to the total amount paid. Only the highest scatter win is paid. Scatter wins are multiplied by the total bet.
- Wild symbol substitutes for all symbols except the Bonus symbol. Wins are shown in currency.
- In some jurisdictions, regardless of bet size, there is an award cap on any single transaction. See the paytable for details. A transaction includes the results of the bonus, plus the outcome which launched the bonus. If the award cap is reached in the bonus, the bonus ends immediately.
- Any game in progress for more than 30 days will be cancelled, and the corresponding bet will be refunded.

## **Additional Information**

### **Expected Payback**

- In accordance with fair gaming practices required in most legal jurisdictions worldwide, each and every game outcome is completely independent, except in cases where one spin unlocks a feature for a subsequent spin or series of spins, per the game rules. The odds of getting any particular outcome are always the same.
- The odds do not vary based on prior outcomes, bet size, balance size, time of day, day of week, etc. For example, if the top award is won on a given play of the game, the chances of winning the top award on the next play are exactly the same. Likewise, prior losses do not change future odds.
- The expected payback reflects the theoretical return across a very large number of plays by numerous players over an extended period of time. The results for any given player over a play session can vary widely from this long-term, expected average in either direction. The fewer the number of games played, the wider the normal variance of actual payback that may be experienced.
