How to play Platinum Roulette

PLATINUM ROULETTE RULES

Platinum Roulette is a classic casino game consisting of a wheel partitioned into different numbers, and a table on which to place bets.

Bets may be placed on the 0 (zero), 00 (double zero) or any number between 1-36.

Numbers 1-36 on the wheel are coloured red or black, while the 0 and 00 are green.

When a game is played, the wheel spins and a small white ball is released.

The ball eventually settles on one of the numbers 00, 0, or 1-36 and this will be the winning number.

Bets are placed on the table before the wheel is spun, and these bets can be placed on a variety of different outcomes.

GAME CONTROLS

CHIP VALUE: To select a chip value, click on the chip value you wish to play. Through the active arrows on the left and right side of the chips, additional chip values can be selected.

PLACE A BET: After a chip value is selected click on the betting area to place or increase a bet. You can place a bet on any of the active betting fields. Every click on a betting area adds a chip of the selected value to your bet. The bet amount may be increased by adding another chip to the betting area. By pointing at different positions on the table, the possible bet types correlated to a specific position will appear in a highlight.

DOUBLE: Select "Double" to double your current bet.

CLEAR: Select "Clear" to remove all bets from the table.

SPIN: Click on "Spin" to play the round by spinning the wheel.

REBET & SPIN: Click on "Rebet and Spin" to place the same bet as in the previous round and to automatically spin the wheel again.

DOUBLE & SPIN: Click on "Double and Spin" to place doubled the bet made in the previous round and to automatically spin the wheel again.

NEW BET: Click on "New Bet" to place a new bet.

It is possible to spin the wheel without placing any bets. This will not deduct any amount of the player's balance.

There is a maximum limit for the whole table equal to the biggest stake available.

RACETRACK BETS:

Racetrack bets are made by placing chips directly on the roulette racetrack.

Number and Neighbors: a bet type that consists of five simultaneous straight wagers of equal value on 5 numbers – 1 number plus the 2 numbers on its left side and the 2 numbers on its right side. Pays 35 to 1. To make a Number and Neighbors bet, place a chip on a number located on the racetrack, that is the center number of the five adjacent numbers you wish to bet on.
