How To Bet

MegaJackpots Golden Goddess features 40 paylines.

Bet Configuration Menu (mobile/tablet devices only)

Press the green arrow to open the bet configuration menu.

Press the green check mark to confirm and close the bet configuration menu.

LINES

Displays the current number of paylines.

Betting is fixed at 40 paylines.

LINE BET

Displays current bet per line shown in currency.

Press the left arrow (-) to decrease the line bet.

Press the right arrow (+) to increase the line bet.

SPIN

Press the circular arrow to submit the bet and spin the reels.

Auto Spin Feature (Desktop only)

Auto Spin plays the game automatically for a given number of spins at the current line bet.

After selecting the desired bet configuration, press the **AUTO SPIN** icon, and choose how many spins to play at the current bet settings.

Auto Spin plays the specified number of spins until the **STOP** icon is pressed, a bonus is triggered, or until the balance is insufficient to spin again.

For UK jurisdictions where Auto Spin is enabled: Select the number of auto spins, the loss limit, and the (optional) single win limit.

Auto Spin is only available in approved jurisdictions.

Winning the *MegaJackpots Progressive*

Every bet offers a chance to win the ***MegaJackpots*** progressive. The higher the bet, the better the odds of winning.

Win the ***MegaJackpots*** progressive with 15 ***MegaJackpots*** symbols in all reel positions on any spin.

After every spin that doesn't award the Jackpot, a behind-the-scenes Second Chance drawing occurs that can also award the ***MegaJackpots*** progressive.

The odds of winning the ***MegaJackpots*** progressive are proportional to the actual bet amount.

For example, a player playing at a 0.20 coin value has twice the chance of winning the ***MegaJackpots*** progressive as a player playing at a 0.10 coin value in the same game and currency. The expected return to player is the same for both players.

Super Stacks Feature

Each reel in ***MegaJackpots Golden Goddess*** includes large stacks of the same symbol. Before each spin, a symbol is randomly selected to fill each reel's stacks. Any symbol may appear in any stack, except the Bonus scatter symbol which may appear on reels 2, 3, and 4 in the base game only. The same symbol may appear in large stacks on multiple reels on the same spin. When the same symbol appears in the stacks on adjacent reels, the potential for big wins increases.

Free Spins Bonus

Nine Bonus scatter symbols on the centre three reels trigger the on-screen bonus picker. These symbols are only found on reels 2, 3, and 4. Choose a Bonus symbol to reveal a Goddess, Man, Horse, or Dove symbol. The revealed symbol becomes the ***Super Stacks*** symbol found on all reels for all spins in the ***Free Spins Bonus***. Triggering the ***Free Spins Bonus*** awards seven free spins. The bonus cannot be retrIGGERED because no Bonus symbols appear on the reels during the ***Free Spins Bonus***.

Free spins are played at the same line bet and same number of lines as the triggering spin.

Rules

Misuse or malfunction voids all pays and plays.

All line win symbols must appear on a played line and on consecutive reels, beginning with the far left reel.

Only the highest winner is paid on each payline. Line wins are multiplied by the line bet on the winning line.

Coinciding wins on different paylines are added.

Wins are shown in currency.

The prizes are paid in accordance with the payout table available on the game interface.

Any game in progress for more than 30 days will be cancelled, and the corresponding bet will be refunded.

Bonus symbols appear in stacks on reels 2, 3, and 4 in the base game only.

When you win the Jackpot, a message appears notifying you that customer service will contact you within 24 hours with details of your Jackpot payout. The award verification may take up a number of days, and the win will not be reflected in your account balance. You may continue to play. It will not affect your Jackpot.

The amount paid after verification is approximately the amount seen on the Jackpot meter when the win occurs. Potentially, the awarded Jackpot could be somewhat higher because of display delays. The Jackpot paid may also be higher due to meter smoothing, when some meter growth from peak times may be spread across slower periods. In an exceptionally rare case, the award value could be the Jackpot seed amount if your Jackpot winning outcome occurred just after another player's Jackpot win but before the Jackpot meter was able to reset due to this earlier winner.

All applicable taxes and fees in connection with any winnings awarded to you and any other payments to you are your sole responsibility. Winnings cannot be transferred, substituted, or redeemed for any other consideration.

In the event that the game is discontinued from the website, or the game becomes permanently unavailable due to unforeseeable circumstances, any funds shown in the Jackpot meter may remain unawarded.

Jackpot represents an increasing top award where the growth is funded by a portion of game revenue, incrementing with every wager. This jackpot is available to players in multiple Canadian provinces. The odds of winning are consistent for all players irrespective of location.

In some jurisdictions, regardless of bet size, there is an award cap on any single transaction, excluding the **MegaJackpots** progressive. See the payable for details. A transaction includes the results of the *Free Spins Bonus* plus the outcome which launched the bonus. If the award cap is reached in the bonus, the bonus ends immediately, even if there are remaining free spins.

Additional Information

Lost Connection During Jackpot Win

In the unlikely event of a lost connection or game reset during a jackpot-triggering spin, the jackpot will be awarded.

Notification of the jackpot win will not appear on the game screen when the game is reloaded, and the win will not be reflected in your account balance. Any standard wins will be reflected in your account balance. Continued play, whether in this game or any other, does not affect the jackpot payout.

The displayed jackpot award is the amount that will appear on the game screen at the time of the jackpot win. This jackpot amount will also appear in the transaction history. The displayed jackpot award may be slightly less than the jackpot amount recorded on the central system. The difference is due to the transmission delay over the network when updating the displayed jackpot. In any event, the player will be awarded the jackpot amount on the central system if there is a difference. This will be the final amount paid to the player. This amount is also called the jackpot payout.

The Customer Service Team will contact you within 24 hours with the details of your jackpot payout. The award verification may take a number of days.

In addition to the features described in the How to Bet section, the Controls Bar on the bottom of the game screen displays the current balance in the chosen currency, the amount paid if a win occurs, and the amount bet on the last/current proposition.

Expected Payback

In accordance with fair gaming practices required in most legal jurisdictions worldwide, each and every game outcome is completely independent. The odds of getting any particular outcome are always the same.

The odds do not vary based on prior outcomes, bet size (except for the jackpot), balance size, time of day, day of week, etc. For example, if the top award is won on a given play of the game, the chances of winning the top award on the next play are exactly the same. Likewise, prior losses do not change future odds.

The expected payback reflects the theoretical return across a very large number of plays by numerous players over an extended period of time. The expected payback includes the positive effect of the jackpot. The larger the jackpot, the larger the expected return.

At reset the jackpot is \$500,000.00 and the expected return is 91.01%.

Example jackpots:	Long-term expected return:
\$750,000.00	92.01%
\$1,000,000.00	93.02%

The results for any given player over a play session can vary widely from this long-term, expected average in either direction. The fewer the number of games played, the wider the normal variance of actual payback that may be experienced.
