

Christmas Cashpots

Introduction

Christmas Cash Pots is a 10 line, 5x3 slot game featuring a multi-cash collector bonus.

How to Play

- Spin the reels by pressing the 'SPIN' button to try to achieve 2, 3, 4 or 5 of a kind reel wins.
- Select the 'CHANGE STAKE' button to increase or decrease the size of the bet.

Autoplay

- Press the 'AUTOPLAY' button to see the options. You must select the number of autoplay games, and your loss limit, before you have the option of starting the autoplay.
- 'Custom Loss Limit' refers to how much money you wish to lose before the auto play stops. For example, if you have \$50 in your balance, and you choose a \$20 loss limit, the auto play will stop as soon as your balance goes below \$30, even if you have auto play games remaining.
- You can either choose to accept the suggested loss limit, which is your stake multiplied by the number of autoplay games you have selected, or manually type in a loss limit by pressing the 'Custom Loss Limit' button.
- Choose the 'More settings' option if you wish to stop the autoplay when you win over a certain amount.
- Select the 'AUTOPLAY' button during autoplays to stop them.

Features

Multi-Cash Collector Bonus

- A Multi-Cash Collector Bonus is triggered by 6 or more CASH POTS symbols on reels 1-4 and a bonus symbol landing in view on reel 5.
- During a Multi-Cash Collector Bonus any positions which do not contain a CASH POTS or cash collector symbol will re-spin up to 5 times.
- Once re-spins are complete all line wins are paid, and the values displayed on all CASH POTS symbols in view are collected for each cash collector symbol in view.

Spin Chance

- Spin Chance is triggered automatically if the credit is reduced below the current price of play, yet is still greater than zero.
- Spin Chance offers the player an opportunity to wager their remaining credit in an attempt at winning an additional spin at the current bet.
- To play Spin Chance, select the 'PLAY' button to begin moving the pointer across the meter.
- Alternatively, select the 'NO THANKS' button to exit Spin Chance with the remaining credit.
- If the pointer stops on the green segment, a spin at the current bet is awarded and plays automatically.

If the pointer stops on the red segment, the player loses any remaining credit and exits to the base game.

- The red and green segments are proportional to the amount of credit in relation to the current bet. The chance of winning a spin is determined by this ratio.
