Rules

Misuse or malfunction voids all pays and plays.

All line win symbols must appear on a played line and on consecutive reels, beginning with the far left reel.

Only the highest winner is paid on each payline. Line wins are multiplied by the line bet on the winning line. Coinciding line wins on different paylines are added.

Coinciding line wins starting with the leftmost reel are paid.

Mask symbols appear in the base game only. Multiple Mask symbols can be collected on the same spin.

If more Mask symbols are collected than can fit in the meter, the additional Mask symbols are not collected.

Multiple Mask meters can be completed on the same spin and all earned features are awarded on that spin.

Scatter Bonus symbol appears in the base game and in the *Free Spins Bonus*. There is a maximum of 5 symbols triggering the bonus on a single transaction.

Wins are shown in currency.

The prizes are paid in accordance with the payout table available on the game interface.

All applicable taxes and fees in connection with any winnings awarded to the player, and any other payments to the winning player are his/her sole responsibility.

Winnings cannot be transferred, substituted, or redeemed for any other consideration.

In some jurisdictions, regardless of bet size, there is an award cap on any single transaction. See the payable for details.

A transaction includes the results of the *Free Spins Bonus*, plus the outcome which launched the bonus.

If the award cap is reached in the bonus, the bonus ends immediately, even if there are remaining free spins.

Any game in progress for more than 30 days will be cancelled, and the corresponding bet will be refunded.

Additional Information

In addition to the features described in the How to Bet section, the Controls Bar on the bottom of the game screen displays the current balance in the chosen currency, the amount paid if a win occurs, and the amount bet on the last/current proposition.

Interrupted Game

In the event of disconnection, an interrupted bonus feature may be resumed immediately by starting the game again. The results of a completed reel spin (where display of the visual result was interrupted) will not be re-displayed within the game but may be reviewed in My History.

Any amount wagered on an unfinished spin will remain paused until you either complete the game or the game is void as a result of account inactivity or system maintenance. When an unfinished spin is void, your bet will be refunded to your account. Any awards earned on an unfinished spin/bonus feature will not be credited unless you resume and complete the game.

Game History

The result of a completed game may be viewed in My History immediately after closing the game window. Results of unfinished games are not displayed in My History.

Expected Payback

In accordance with fair gaming practices required in most legal jurisdictions worldwide, each and every game outcome is completely independent. The odds of getting any particular outcome are always the same.

The odds do not vary based on prior outcomes, bet size, balance size, time of day, day of week, etc. For example, if the top award is won on a given play of the game, the chances of winning the top award on the next play are exactly the same. Likewise, prior losses do not change future odds.

The expected payback reflects the theoretical return across a very large number of plays by numerous players over an extended period of time. For this game type, the long-term theoretically expected payback is 96.16%. The results for any given player over a play session can vary widely from this long-term, expected average in either direction. The fewer the number of games played, the wider the normal variance of actual payback that may be experienced.
