EXPANDING SYMBOLS

- A symbol is randomly chosen before the free spins are played.
- When the chosen symbol lands during free spins, it will expand to cover the entire reel. The chosen symbol will only expand if it can award additional winlines. These winlines consist of only expanded symbols, ignoring reels that have no expanded symbols on them. These winlines do not have to start from the leftmost reel.
- Standard winlines get assessed and pays out first, then the expanding occurs if applicable and pays out again.
- If additional free spins are awarded, the chosen symbol will remain the same.

Mega Drop

- Mega Drop consists of three Progressive Jackpots, these are the Minor, Major and Epic jackpots.
- For each spin, a proportion of the player's total bet is contributed towards the Progressive jackpots.
- The Mega Drop jackpots each have payout values before which they must drop. By the time the Progressive jackpot reaches its maximum payout amount it will have been awarded to a player.
- Progressive jackpots can also be awarded on any wager.
- When a Progressive jackpot is awarded, the jackpot amount is reset to a reseed value of approximately 25% of the value paid out.
- It is not possible to be awarded more than one jackpot with a single wager. If more than one jackpot is won with the same stake, the jackpot with the higher maximum drop value will be awarded.
- There exists theoretical scenarios where the jackpot drop amount may slightly exceed its expected drop value.
- Progressive jackpot balances are displayed in the game, and are updated only when awaiting user input. The jackpot balances update at least once per 2 seconds during this state.
- Although progressive jackpots can be won on any stake, the higher the stake, the greater chance.
