Winning the *MegaJackpots Progressive*

Every bet offers a chance to win the ***MegaJackpots Progressive***. The higher the bet, the better the odds of winning.

Win the Jackpot with 20 ***MegaJackpots*** symbols in all reel positions on any base game spin or free spin in the *Free Spins Bonus*.

After every spin that doesn't award the Jackpot, a behind-the-scenes Second Chance drawing occurs that can also award the ***MegaJackpots Progressive***.

The odds of winning the Jackpot are proportional to the actual bet amount. Therefore, the game is completely fair, offering the same odds per amount bet per currency.

For example, a player playing at a 0.20 line bet has twice the chance of winning the Jackpot as a player playing at a 0.10 line bet in the same game and currency. The expected return to player is the same for both players.

See Rules for information regarding payout.

Stacked Wilds Feature

The ***Stacked Wilds*** feature offers groups of four or more consecutive Wild symbols and ***MegaJackpots*** symbols on each reel. In the *Free Spins Bonus*, the ***Stacked Wilds*** feature is even richer and more plentiful.

Free Spins Bonus

The *Free Spins Bonus* is triggered when three Bonus scatter symbols appear anywhere on the centre reels. These symbols are only found on reels 2, 3, and 4.

Triggering the *Free Spins Bonus* awards 5 free spins. The reels in the *Free Spins Bonus* have a richer, more plentiful ***Stacked Wilds*** feature than the base game reels.

During the *Free Spins Bonus*, the bonus can be retriggered when three Bonus scatter symbols appear anywhere on the centre three reels. These symbols are only found on reels 2, 3, and 4. The bonus can be retriggered multiple times, up to a maximum of 255 free spins per bonus.

Free spins are played at same line bet and same number of paylines as the triggering spin.

Rules

Misuse or malfunction voids all pays and plays.

All winning symbols must appear on a played line and on consecutive reels, beginning with the far left reel.

Only the highest winner is paid on each payline. Line wins are multiplied by the line bet on the winning line. Coinciding line wins on different paylines are added.

Only the highest scatter win is paid. Scatter wins are multiplied by the total bet.

Scatter wins are independent from line wins and are added to the total amount paid.

Bonus wins are independent from line wins and are added to the total amount paid.

Bonus scatter symbol appears on reels 2, 3, and 4 only.

Wins are shown in currency.

The prizes are paid in accordance with the payout table available on the game interface.

In some jurisdictions, regardless of bet size, there is an award cap on any single transaction, excluding the **MegaJackpots** Progressive.

See the paytable for details.

A transaction includes the results of the *Free Spins Bonus* plus the outcome which launched the bonus. If the award cap is reached in the *Free Spins Bonus*, the *Free Spins Bonus* ends immediately, even if there are remaining free spins.

Any game in progress for more than 30 days will be cancelled, and the corresponding bet will be refunded.

MegaJackpots Rules

When a player wins the Jackpot, a notification message appears. Customer service will contact the player within 24 hours with details of your Jackpot payout. The award verification may take up to 72 hours, and the win will not be reflected in your account balance. You may continue to play. It will not affect your Jackpot.

The amount paid after verification is approximately the amount seen on the Jackpot meter when the win occurs. Potentially, the awarded Jackpot could be somewhat higher because of display delays.

In an exceptionally rare case, two players may simultaneously win **MegaJackpots**. The order of the winners is determined solely by the timestamp applied to each transaction request as it is received by the **MegaJackpots** server. The official **MegaJackpots** winning outcome belongs to the player whose transaction timestamp is first. The player whose timestamp is second may win the jackpot Re-Seed Amount if their **MegaJackpots** winning outcome occurred just after the other player's **MegaJackpots** win, but before the **MegaJackpots** meter was able to reset.

All applicable taxes and fees in connection with any winnings awarded to the player, and any other payments to the winning player are his/her sole responsibility. Winnings cannot be transferred, substituted, or redeemed for any other consideration.

Jackpot represents an increasing top award where the growth is funded by a fixed percentage of each bet placed by all players playing for the jackpot.

Additional Information

Lost Connection During Jackpot Win

In the unlikely event of a lost connection or game reset during a jackpot-triggering spin, the jackpot will be awarded.

Notification of the jackpot win will not appear on the game screen when the game is reloaded, and the win will not be reflected in your account balance. Any standard wins will be reflected in your account balance.

Continued play, whether in this game or any other, does not affect the jackpot payout. The Customer Service Team will contact you within 24 hours with the details of your jackpot payout. The award verification may take up to 72 hours.

Expected Payback

In accordance with fair gaming practices required in most legal jurisdictions worldwide, each and every game outcome is completely independent. The odds of getting any particular outcome are always the same.

The odds do not vary based on prior outcomes, bet size (except for the jackpot), balance size, time of day, day of week, etc. For example, if the top award is won on a given play of the game, the chances of winning the top award on the next play are exactly the same. Likewise, prior losses do not change future odds.

The expected payback reflects the theoretical return across a very large number of plays by numerous players over an extended period of time. The results for any given player over a play session can vary widely from this long-term, expected average in either direction. The fewer the number of games played, the wider the normal variance of actual payback that may be experienced.
