Best Strategy

The best strategy dictates that the selection for positions of jokers and super jokers is always in the position that will move the player closer to completing a slingo.

Where multiple positions with the same criteria are available the preference is given to the positions that are included in the most slingos (win lines).

For example the central square would be given preference since it is included in a horizontal, vertical and two diagonal lines.

Where multiple positions with the same criteria exist again a random choice is made.

Free Games

If a player is awarded a free game of Slingo XXXtreme they will be able to play the base game for free at a predefined staking value. When the base game is completed, the winnings accrued by completing horizontal, vertical or diagonal Slingos or other special symbol bonuses will be displayed to the player and the player will have the option to collect their winnings or continue the game by purchasing extra spins using the funds available in their cash or bonus balance.

A player may purchase extra spins using a combination of their real cash and bonus cash balance and the final amount won by the player will be credited to their balance proportionate to their blended stake.

For the avoidance of doubt, the free game is considered as a bonus cash stake.
