HOW TO PLAY

- Select your play amount by clicking on the "+" or "-" buttons.
- Click on PLAY to deduct the ticket cost from the balance and play the game.
- Press PLAY and the symbols will fall into place on the 5x3 game board.
- If a winning pattern is revealed:
    - Those blocks are destroyed
    - New blocks fall from the top to fill the gaps created
    - The multiplier meter moves up by 1 spot (up to a maximum of x5)
- If the new symbols that get added lead to a new winning pattern, the process continues until no winning patterns are present. Once no winning patterns are present, the multiplier is applied to the wins for that turn and the total is awarded to the player. The multiplier meter resets to 1 after each turn.
- Reveal 3 or more matching symbols (from the Prize Chart) that share a side to automatically remove that cluster of symbols from the board and win according to the prize chart.
- For each symbol removed, a symbol falls down from above to fill its place, potentially forming more winning clusters.
- Each time new symbols are added within a single go, the multiplier increases.

The player is presented with 3 Piggy Banks. Picking 1 of the 3 Piggy Banks opens the Piggy Bank to reveal a prize. That prize is awarded and the game ends.

AUTOPLAY

- Number of plays – total number of games that will be played at the current TOTAL COST.
- Loss limit – auto play will stop when your balance decreases by this amount, which can be set as a multiple of your TOTAL COST per play. If you don't want a limit, simply select the 'infinity' symbol at the end of the row.
- Single win limit – auto play will stop when a single win exceeds this amount, which can be set as a multiple of your TOTAL COST per play. If you don't want a limit, simply select the 'infinity' symbol at the end of the row.

Once you have defined your settings of choice, press 'SET AUTO PLAY' to start your auto play session at the currently selected TOTAL COST (which is the individual AMOUNT PER PLAY per play multiplied by the number of PLAYS).
