## POWER PRIZES™ - Noble Peacock™

### GAME RULES

- This page contains information on how to play this game.
- Please scroll down to read through all topics.

#### Getting started

- When you start the game, you enter a lobby where you can choose a machine to play this game. Simply click on "Play now" or a vacant machine to begin playing!
- This game is a game for one player - the gameplay of other players does not affect yours. Each game starts when you place a bet and ends when you leave the application.
- Within the lobby, you may recognize other players in the same game by a person sitting at a machine. By clicking such a machine, you are entering "spectator mode" and can watch a different player play. You are not able to influence the game which you are spectating in any way.
- Please choose the amount that you would like to take with you into the game directly after entering it.

#### Playing

- You choose the total bet per round via the "Total Bet" button.
- The minimum bet per round is \$ 0.30.
- The maximum bet per round is \$ 45.00.
- The "Start" button begins a round of play.
- Each round is independent of previous rounds.
- All game outcomes are independent and randomly determined.
- When you start a round, the bet is deducted from the balance you've paid in.
- At the end of a round, the console displays your win, if any.
- A player cannot influence the result of a game by stopping the reel spins.
- Reels are counted from left to right, with 1 being the leftmost, and 5 being the rightmost reel.

#### Winlines

- POWER PRIZES™ - Noble Peacock™ is an ALLPAY game with 243 winways.

#### Autoplay

- Clicking on "Auto" starts automatic spins.
- If "Autoplay" is activated the button label becomes green. Clicking it again stops the automatic spins.
- Autoplay stops automatically when the total bet is higher than your current funds.
- Autoplay stops automatically when a feature is awarded.

#### Winnings

- Winning combinations and payouts are made according to the paytable.
- Symbol payout values shown in the paytable are dynamic and change in accordance with the selected bet value.
- Highest win only paid on each selected line and per scatter combination.
- Scatter wins and line wins are added.
- All combinations start on the leftmost reel, except scatters.
- All combinations are on adjacent reels, except scatters.
- Symbols are evaluated only in the position or positions they predominantly cover.
- Highest win only paid per combination on screen.
- All prizes show in credits except Jackpots.

#### Bonus Symbols

- 3 or more Lotus symbols appearing anywhere trigger the Free Spins.
- 6 or more Coin symbols on the reels trigger the Power Prizes™ Feature.
- Minor/Mini/Major/Maxi/Grand Coin symbols are different representations of Coin symbol and substitute for it.
- Red Envelope scattered on the third reel triggers the Red Envelope Feature.
- Wild substitutes for all symbols except Lotus and Coin. It can act as a Multiplier in the Free Spins.

#### RTP Range

- The theoretical RTP (return to player) value for this game is 95.00 %.
- The theoretical RTP is calculated as total win/total bet over a large number of games played and reflects the prizes awarded by a game as a percentage of all bets made. The actual RTP can vary widely in either direction for a small number of games due to statistical variance.

#### Connection Loss

- In case you lose your network connection, the game will complete the current round of play.
- If this round contains multiple spins (e.g. free games feature), the game will determine your winnings based on the game's expected win values.

Malfunction voids all pays and plays.

The prizes are paid in accordance with the payout table available on the game interface.

Any game in progress for more than 2 hours will be completed and the corresponding prize, if any, will be deposited into the account.

## GAME FEATURES

### Free Spins

- 8, 16, or 24 Free Spins are initially awarded, dependent on the number of Lotus symbols that triggered the Free Spins.
- The Royal symbols (A, K, Q, J, T) are removed from the Free Spins.
- The Wild multiplies winnings in the Free Spins. Multiplier values can be 2x, 3x, or 5x.
- Free Spins are played using the same bet as the spin which triggered them.
- Free Spins can be won again during the Free Spins.

### Power Prizes™ Feature

- The Power Prizes™ Feature is played using the same bet as the spin which triggered it.
- All Coin symbols that triggered the feature are held in the position and all other remaining positions turn into individual spinning reels.
- 1 respin is awarded for each Coin symbol that appears in the initial triggering spin.
- During respins if additional Coin symbols appear, they will be held for all remaining respins.
- The feature is completed when either no respins remain or when all 15 positions are filled with Coin symbols.
- Randomly at the end of respins, an additional 1 to 3 respins may be awarded.
- At the completion of the feature, all displayed prizes on the Coin symbols are awarded and added to your balance.
- If all 15 positions are filled with Coin symbols, then all wins are awarded twice except progressive jackpots, which are only awarded once.
- Coin symbols triggered during the feature can be randomly multiplied by 5.
- If the Coin value is equal to or greater than 5 times the bet, the value is orange, otherwise it is white.
- Grand Coin appears only during the Power Prizes™ feature.

### Red Envelope Feature

- Red Envelope symbol scattered on reel 3 triggers the Red Envelope Feature.
- In the feature, the Red Envelope symbol adds 1 to 4 Coin symbols to existing positions on the reels.
- Coin symbols will replace the initial symbol that resided at the selected positions.
- The Red Envelope symbol will also change into the Coin symbol.

### Jackpots

- 0.7% of every stake goes directly into the jackpot.
- Players playing the maximum stake will be eligible to win the total jackpot. Lower staking players will win a proportion of the total jackpot relative to the stake placed.
- The amount you are eligible to win will be shown in the jackpot bank.
- Each jackpot is the sum of its base win plus the contributions from all players to this jackpot.
- It is not possible for two players to win the jackpot simultaneously. In instances of apparent simultaneous wins, the games are time-stamped and the first player to trigger the win is awarded the jackpot.
- Subsequent players will win the reseeded jackpot, plus any new contributions.
- When some or all of a jackpot is won, it is reset to the base win for your stake, plus the current total contributions you are eligible to win.
- The jackpots are initially seeded at 333 / 1000 / 3333 multiplied by total bet (or the equivalent in your account currency if different). When a jackpot is won, it is reset to the seed value.
- There is no ceiling value for the jackpots.
- The base currency of this game may be different to the currency of your account. When that is the case, the progressive jackpot is shown at its current value in your account currency. That amount may go up or down depending on fluctuations in exchange rates.

### Gambling

- With current bet it is possible to gamble any win up to 5 times with a maximum stake of \$ 450.00.
- For higher wins or during autoplay, gambling is not possible.
- Gambling is not possible after a jackpot win.
