French Bets

French Bets is a series of inside bets that cover a specific section on the Roulette wheel. These bets do not give any particular edge. They are simply a popular predefined set of bets that are widely known by Roulette players and allow you to place the bets faster. You can enter the French Bets menu through the game menu button.

There are 4 predefined French Bets:

- I. Jeu du Zéro (Zero Game)
- II. Voisins du Zéro (Neighbors of Zero)
- III. Orphelins (Orphans)
- IV. Tiers (Thirds of the Wheel)

One tap on a French bet button will place the corresponding number of chips with the selected chip value. If you tap the same French bet again, the game will place another set of bets on top of it.

You can also bet on the Neighbor bet which is a straight up bet on a single number and a straight up bet on the numbers that are directly to the left and right side of the desired number on the French Bet wheel. You can change and select the range of numbers, from 1 to 6, by using the plus or minus buttons.

Favorite Bet

Favorite Bets allows you to save a preferred bet or combination of different types of bets for easier placement. You may save up to 10 favorite bets.

Creating a Favorite Bet

To create a Favorite Bet, you must start by placing your bet combinations on the cloth. Once you have finished placing all your desired bets, you open the Favorite Bet menu and assign the bet to one of the slots available in the list. You must assign a name to each Favorite Bet, at least 4 characters long. If there are no Favorite Bet slots available, you can delete one of them and reassign it to your new Favorite Bet you have just created.

Roulette X Multipliers

In Roulette X, you can select one of FOUR bonus levels to play, or you can choose to play standard Roulette at Level 0. When levels 1 to 4 are selected, two to five straight up numbers on the table are converted to bonus Multiplier numbers, based on the table below. If the spin result number falls on a Multiplier number, the payout for that number is increased by the multiplier value indicated. However, in selecting a level, you also lower the standard payout for all non-multiplier

straight-up bets.

The Multipliers and payouts are as follows:

LEVEL	Multiplier Values Available	Straight up Bet Payout
Level 1	50	33
Level 2	50, 100	32
Level 3	50, 100, 250	30
Level 4	50, 100, 250, 1000	26

Statistics

The Statistics menu displays a wide range of information of the previous (up to) 200 spins results such as:

- The number of times each number on the wheel came out as a percentage.
- Hot Numbers – the five spin result numbers that came out the most.
- Cold Numbers – the five spin result numbers that came out the least.
- Frequency (in percentage) of the number of times each French Bets and Outside bets came out.
