- Wild symbols include: Medallion Wild, Truffle Shuffle Wild, Mikey Wild, Colossal Wild, Super Sloth Wild, Goonie Wild and Inferno Wilds.

### **One-Eyed Willy's Riches**

- One-Eyed Willy's Riches can be triggered randomly during any spin:
- Truffle Shuffle Wilds - Wilds can overlay the reels, turning positions wild.

- Mikey's Hidden Riches - Any of the reels can be turned into a reel stacked full of wilds.
- Data's Colossal Symbols - As the reels continue to spin, 3 adjacent reels can be turned into a Colossal Reel.
- Mouth's Lucky Coins - The Mystery symbol (Gold Coin) chooses a symbol at random to be displayed inside the Gold Coin. During any spin where a Coin lands on the reels a symbol is chosen which is displayed in every Coin in view.
- One-Eyed Willy's Bonus Boost - Additional Bonus symbols can be added to the reels.
- Sloth's Win Spin – Guaranteed to award a big winning spin.
- There are also two additional modifiers which can trigger after any spin both turning a lose into a win. On a losing spin a scythe can appear which will reset the reels into a win, and also a cave collapse can occur to reveal a win.

### Bonus Activation

The player enters the bonus by achieving 3 or more bonus symbols anywhere in view. There is no payout awarded directly for getting this, just entry to one of the bonus rounds.

The player will spin the wheel, which after a spin will stop on one of 6 features, revealing the bonus that has been awarded.

### **Fratelli Hideout Bonus**

Triggered by landing on the Fratelli Hideout segment of the wheel during the Bonus.

Pick a key to reveal one of three outcomes: CASH ADD (adds a cash amount based on the player's total bet); COLLECT (ends the feature); HIDDEN TUNNEL (takes the player to the Hidden Tunnel sub-bonus).

If the Hidden Tunnel is revealed then the player can trigger any one of the 5 additional Bonuses.

### **Skeleton Organ Bonus**

Triggered by landing on the Skeleton Organ segment of the wheel during the Bonus.

The player selects the organ keys to reveal an icon. Each character will match up to a total bet multiplier. Additionally, revealing an UPGRADE icon will upgrade the total bet multipliers or the possible feature that can be won during the bonus. Collecting 3 Key symbols unlocks the door to an additional feature bonus.

Watch out for the Skull and Crossbones. LOSE 3 LIVES AND IT'S GAME OVER!

### **Super Sloth Free Spins**

Triggered by landing on the Super Sloth Free Spins segment of the wheel during the Bonus.

A screen transition will occur and the player will be taken to a new set of reels featuring the Fratelli family.

During any spin, if a Super Sloth Wild lands in view any Fratelli symbols on the reels are turned into the top symbol.

At the end of Free Spins the player has one extra chance to win extra prizes.

Choosing a chest reveals either Super Sloth (extra Spins), Collect (ends the feature) or One-Eyed Willy's Treasure Bonus (awards the feature).

### **Goonies Go Wild Free Spins**

Triggered by landing on the Goonies Go Wild Free Spins segment of the wheel during the Bonus.

At the start of each spin after spin number 1, one of the top reel symbols will become Wild.

At the end of Free Spins the player has one extra chance to win extra prizes.

Picking one of the Copperpot Doubloons will reveal either COLLECT (ends feature), EXTRA SPINS or One-Eyed Willy's Treasure (awards that feature). If the player reveals EXTRA SPINS then they are awarded up to 5 extra spins with all of the Goonies symbols wild.

#### Inferno Free Spins

Triggered by landing on the Inferno Free Spins segment of the wheel during the Bonus.

At the start of each spin the Inferno will move across the reels from right to left, turning between 1 and 3 consecutive reels Wild.

At the end of Free Spins the player has one extra chance to win extra prizes.

Spinning the wheel will reveal either COLLECT (ends feature), EXTRA SPINS or One-Eyed Willy's Treasure (awards that feature). If the player reveals EXTRA SPINS then the feature is retriggered.

#### One-Eyed Willy's Treasure Bonus

Collecting 5 Bonus symbols, gambling to, or having landed on the One-Eyed Willy's Treasure Bonus on the Bonus Wheel triggers the One-Eyed Willy's Treasure Bonus.

The values will spin and then come to a stop awarding the corresponding total bet multiplier. The feature continues until the booby trap is triggered on the scales, where the player is awarded their total bet multiplier win.

#### Feature Gamble

Whenever a Feature win is achieved in the game (except for One-Eyed Willy's Treasure Bonus), the player has the option to either COLLECT the feature or Gamble to try and win one of the other features in the game.

After the award of the initial Bonus from the wheel spin during the Bonus, the player will be presented with a Gamble screen showing the 6 features from bottom to top, ranked in terms of average payout. The feature the player has won will be shown to the player with the words COLLECT and GAMBLE shown on the feature panel in the centre of the screen.

If the player gambles and wins, the feature they have gambled to can be collected, with all features below that now eliminated. This continues until the player collects, reaches the top feature (where it awards that feature) or the player lands on the Mystery Win segment during the wheel spin where they are then awarded a Mystery Win Prize (a mystery cash value based on a multiplier of the player's total bet).

The odds of winning during the gamble feature are not necessarily the odds shown.

In this game, the "Feature Gamble" is an animation for entertainment purposes and should not be used to estimate the odds of winning.

#### Auto Play

- There is an Autoplay function in the game that will start each spin automatically.
- By selecting 'AUTOPLAY' you can choose to place up to 100 bets automatically, one after the other.
- Select your stake as normal then press the 'AUTOPLAY' button to select the number of 'Autoplay' bets you want to play.
- Select your Loss Limit (maximum amount willing to lose for the autoplay session) and then press PLAY to begin your autoplays (other options are available).
- Auto Play will turn off if you get into any bonus round including Freespins, if you reach the set Loss Limit or if a Progressive pot is awarded (where applicable).
- You can stop Auto Play from continuing onto the next spin by clicking the 'STOP' button
