

HOW TO PLAY

- The game utilises a standard deck of 52 cards which is re-shuffled between each hand.
 - The Player must place a bet in the ANTE bet area on the table.
- The 5+1 BONUS bet is optional. This bet can only be placed after making an ANTE bet and before the cards are dealt.
- Five cards are then dealt face up to the Player. The House is dealt five cards (one face up and four face down).
 - The player then has the choice whether to make the PLAY bet or FOLD.
- If the Player chooses to FOLD, the game round will end and the ANTE bet will be forfeited.
 - The PLAY bet is equal to x2 the ANTE bet.
- If the player makes the PLAY bet, then the House's cards are revealed and the hands are compared.
 - The House must have at least an A-K high card hand to qualify.
 - This is defined as an A-High card hand, with a K as the next highest card.

PAYOUTS

- If the House does not qualify, the ANTE bet pays 1 to 1, and the PLAY bet pushes.
- If the House beats the Player, and the House qualifies, both the ANTE and PLAY bets are lost.
- If the Player ties with the House, and the House qualifies, both the ANTE and PLAY bets are pushed.
- If the Player beats the House, and the House qualifies, the ANTE bet will pay 1:1, and the PLAY bet will pay according to the payable.
 - When a bet is pushed, it is returned to the Player with no additional winnings.

5+1 BONUS

- The 5+1 BONUS is an optional bet which has alternative payouts to the standard game.
 - Pays are evaluated at the end of the game round.
- The 5+1 Bonus bet will be assessed regardless of whether the House's hand qualifies.
 - This bet takes into account the Player's five cards and the House's up card only.
- If the Player chooses to FOLD during the game round, the 5+1 Bonus bet will not be affected.
- The best 5-card hand that can be made from the six cards will be compared against the paytable.

HAND RANKINGS

- In Casino Stud, 5-card hands are ranked from highest to lowest as follows:
 - Royal Flush
 - (contains the following cards of the same suit: A, K, Q, J, 10)
 - Straight Flush
 - (contains five cards in sequential rank and of the same suit)
 - Four of a Kind
 - (contains four cards of the same rank)
 - Full House
 - (contains three matching cards of one rank and two matching cards of another rank)
 - Flush
 - (contains five cards of the same suit)
 - Straight
 - (contains five cards of sequential rank in at least two different suits)
 - Three of a Kind
 - (contains three cards of the same rank)
 - Two Pair
 - (contains two cards of the same rank, plus two more of another matching rank)
 - Pair
 - (contains two cards of the same rank)
 - High Card
 - (contains a single card which has the highest rank of all cards in the hand)
- For all hand rankings, note that the rank of a card ascends sequentially from 2-10, and then according to the following:
 - J
 - Q
 - K
 - A
- When evaluating a hand, only the highest possible rank within the Player's cards is considered (while a Straight Flush contains both a Straight and a Flush, it is calculated solely as a Straight Flush). A is high except in 5-4-3-2-A sequence.
