## Auto Spin Feature

Auto Spin plays the game automatically for a given number of spins at the current line bet and number of paylines selected.

For UK jurisdictions where Auto Spin is enabled: Select the number of auto spins, the loss limit, and the (optional) single win limit.

After selecting the desired bet configuration, press the **Auto Spin** button and choose how many spins to play at the current bet settings.

Auto Spin plays the specified number of spins until the **Stop** button is pressed, a bonus is triggered, or the balance is insufficient to spin again.

Auto Spin is only available in approved jurisdictions.

### *Free Spins Bonus*

The *Free Spins Bonus* is triggered when three or more Bonus scatter symbols appear anywhere on the reels.

The amount of free games is described in the following table:

<b>Number of Bonus Symbols</b>	<b>Free Games Awarded</b>
3	8
4	15
5	100

Bonus scatter symbols appear on reels 1, 2, 3, 4 and 5.

The bonus can be retriggered multiple times, up to a maximum of 600 free spins per bonus.

Free spins are played at the same line bet and same number of paylines as the triggering spin.

All wins are multiplied by 2x, except wins of 5 Wild symbols.

### **Rules**

Misuse or malfunction voids all pays and plays.

All line win symbols must appear on a played line and on consecutive reels, beginning with the far left reel.

Only the highest winner is paid on each payline. Line wins are multiplied by the line bet on the winning line. Coinciding line wins on different paylines are added.

Only the highest scatter win is paid per scatter symbol. Scatter wins are multiplied by the total bet.

Scatter wins are independent from line wins and are added to the total amount paid.

Wild symbol appears on all reels in the base game and Free Spins Bonus.

Wins are shown in currency.

The prizes are paid in accordance with the payout table available on the game interface.

In some jurisdictions, regardless of bet size, there is an award cap on any single transaction. See the paytable for details. A transaction includes the results of the Free Games Bonus, plus the outcome which launched the bonus. If the award cap is reached in the bonus, the bonus ends immediately, even if there are remaining free spins.

## Additional Information

In addition to the features described in the How to Bet section, the Controls Bar on the bottom of the game screen displays the current balance in the chosen currency, the amount paid if a win occurs, and the amount bet on the last/current proposition.

## Interrupted Game

In the event of disconnection, an interrupted bonus feature may be resumed immediately by starting the game again. The results of a completed reel spin (where display of the visual result was interrupted) will not be re-displayed within the game but may be reviewed in My History.

Any amount wagered on an unfinished spin will remain paused until you either complete the game or the game is void as a result of account inactivity or system maintenance. When an unfinished spin is void, your bet will be refunded to your account. Any awards earned on an unfinished spin/bonus feature will not be credited unless you resume and complete the game.

## Game History

The result of a completed game may be viewed in [My History](#) immediately after closing the game window. Results of unfinished games are not displayed in My History.

## Expected Payback

In accordance with fair gaming practices required in most legal jurisdictions worldwide, each and every game outcome is completely independent. The odds of getting any particular outcome are always the same.

The odds do not vary based on prior outcomes, bet size, balance size, time of day, day of week, etc. For example, if the top award is won on a given spin of the game, the chances of winning the top award on the next spin are exactly the same. Likewise, prior losses do not change future odds.

The expected payback reflects the theoretical return across a very large number of spins by numerous players over an extended period of time. For this game type, the long-term theoretically expected payback is 92.19% to 96.19%. The results for any given player over a play session can vary widely from this long-term, expected average in either direction. The fewer the number of games played, the wider the normal variance of actual payback that may be experienced.
