

Overview

Bet The Set 21 is a twist on the classic casino game Blackjack where the player plays against the house to score the closest to 21 as possible without busting.

This game is played with a 6-deck pack of cards which is reshuffled between each game. Play with up to three starting hands, each with one optional side bets.

The side bet is "Bet The Set"

Payouts

Blackjack

WIN	1:1
DRAW	PUSH
BLACKJACK	3:2

Insurance

BLACKJACK	2:1
-----------	-----

Push

When a bet is pushed it is returned to the player with no additional winnings.

How to Play

The player can choose to play up to three initial hands. A Main bet must be placed for each hand to be played.

The Main bet refers to the bet per hand for the Blackjack game only.

Two cards will then be dealt to each hand and two to the house. The house's cards will be dealt with one card face up and one card face down.

The total of any hand is the sum of the card values in the hand.

The player must repeatedly decide which available action to take until the hand is resolved.

The player will win when their hand totals higher than the house's hand (without going bust), or if the player has 21 or less when the house busts.

If the player's hand is equal to the house's hand, the player draws.

After the initial deal, if the house's initial face up card has a value of 10, the house will view the face down card to check for blackjack. If the house's face up card is an Ace this check will occur after the player decides whether to place an insurance bet. If the house has blackjack, the game will immediately end.

Player Actions

There are 5 possible actions the player can take on their hands.

Hit - This deals an extra card to the hand.

Stand - This keeps the hand as it is.

Double - This doubles the player's bet for that hand and deals one extra card to the hand. No further action will be allowed for the hand.

Split - The first and second card of the hand are split into two separate hands. A second card is dealt to both hands. A bet equal to the initial hand's bet will be placed on the newly created hand.

Surrender - This discards the hand. Half of the stake for this hand is returned to the player at the end of the game.

Rules

A hand may only be split as the first action on the hand, and if the initial two cards are of the same rank.

A hand may only be split once. It is not possible to split a hand that has already been split once.

If a hand of two Aces is split, no further action will be allowed for these hands.

The player can select double for a hand after a split has been made.

A hand may only be surrendered as the first action on the hand.

A split hand cannot be surrendered.

The house must draw to 16. The house must hit on soft 17. The house must stand on a hard 17.

A hand with an ace valued as 11 is “soft”, otherwise it is “hard”.

A hand is considered bust when it exceeds a total hand value of 21.

When only two cards are used to create a hand with a value of exactly 21, this is considered Blackjack. This only occurs for the first two cards drawn for a hand, and does not apply to hands which have been split.

Hands with a value of 21 automatically stand.

No hand can contain more than 13 cards. Any hand containing 13 cards that has not bust, automatically stands.

Bet the Set Side Bet

“Bet The Set” is an optional side bet which players can make per hand.

The “Bet The Set” side bet is resolved immediately after the Player has been dealt their initial two cards.

The Player wins if the hand's initial two cards are a Pair or a suited Pair.

Outcome	Payout
Pair	10:1
Suited Pair	12:1

Insurance

After the initial deal, if the house's face up card is an Ace, the player will be presented with an option to make an Insurance bet.

The Insurance bet is a bet that the house has a total of 21 exactly with two cards (blackjack).

The bet amount for the Insurance bet will always be half of the Main bet for the current hand.

The player will be presented with the option to make an Insurance bet for each hand in play.

Card Values

In Blackjack, the card values are as follows:

A - can be counted as 1 or 11.

An Ace is counted as 11 if it does not cause the hand value to exceed 21. Each Ace is evaluated independently.

2-10 - are counted as their respective number.

J, Q, K - are counted as 10.

Suits are irrelevant in blackjack.

LEGAL NOTICES

In accordance with fair gaming practices, the outcome of each and every game is completely independent.

The chances of getting a particular outcome are always the same at the start of every game.

Winnings from each hand are added together to form the total win when the pays are evaluated.

The minimum initial main bet per hand is \$0.10

The maximum initial main bet per hand is \$100.00

The maximum Bet The Set side bet per hand is \$100.00

The maximum win per hand is \$400.00.

The maximum win per hand for the Bet The Set side bet is \$1,300.00

The expected RTP for Blackjack is 99.42%.

The expected RTP for the insurance side bet is 92.60%.

This is based on standard blackjack strategy.

The expected RTP for the Bet The Set side bet is 84.57%.

This reflects the theoretical return across many plays.

The prizes are paid in accordance with the payout table available on the game interface.

Malfunction voids all pays and plays.

Any game in progress for more than 30 days will be cancelled, and the corresponding bet will be refunded.
