## ABOUT THE GAME

Wins of Nautilus is a 6-reel, MEGAWAYS™ game featuring Avalanche, Countdown Bomb Feature, Respin Feature and the Deep Sea Free Spins. The theoretical average return to player (RTP) for this game is 96.10%.

A MEGAWAYS™ win occurs when 3 or more identical symbols land on consecutive reels from the leftmost to right.

All wins pay left to right.

The win is multiplied by the number of winning symbols per reel according to the Paytable and by the Wild Multiplier (if any).

Symbols can appear in different sizes. Symbol size does not factor into its payout value

Winning combinations and payouts are made according to the Paytable.

The Paytable reflects the current Bet configuration and changes in accordance with the total Bet.

All Bets and payouts are in your currency. Payouts are based on the total Bet.

Only the highest win is paid per a MEGAWAYS™.

Only the longest matching combination for each symbol is paid. Simultaneous wins on different MEGAWAYS™ are added.

This game features a win cap of 10000x the bet made for the game round.

## MEGAWAYS™

The game consists of 6 main reels.

Reels 1 and 6 can each show between 2 and 7 symbols per spin.

Reels 2, 3, 4 and 5 can each show between 2 and 6 symbols per spin.

There is an additional top reel which consists of 4 positions and spins horizontally.

The top reel contributes to winning combinations on the main reel set by acting as an extra row for reels 2-5.

## **AVALANCHE**

Symbols in winning combinations pay out, explode and disappear, and new symbols take their place.

Symbols on the main reels fall down, and symbols on the top reel fill in from the right side of the reel.

Symbols do not transfer between the two reel sets.

Wins are evaluated before the winning symbols explode.

Any new winning combinations are evaluated once the new symbols fall into the reels.

The total win for the spin is awarded when no more Avalanches occur.

## **COUNTDOWN BOMB FEATURE**

The Countdown Bomb symbol can appear on reels 2-5 and the top reel.

Each Countdown Bomb symbol appears with an Avalanche counter.

The starting value of the Avalanche counter ranges from 1 to 4.

Whenever an Avalanche occurs, every Countdown Bomb symbol on the reels has their Avalanche counter value decrease by 1.

When a Countdown Bomb symbol's Avalanche counter reaches 0, the symbol explodes and creates a Full Reel Wild symbol with a Wild Multiplier value equal to 2 times its starting Avalanche counter value.

If the Countdown Bomb symbol is on the top reel, it will fall down into the main reel set before exploding, and a new random paying symbol will take its position on the top reel.

A chain explosion is activated if there are 2 Countdown Bomb symbols on the same reel when one of their Avalanche counters reaches 0. When this happens, both Countdown Bomb symbols explode, creating a Full Reel Wild symbol that has a multiplier equal to 2 times the sum value of both Countdown Bombs symbols' starting Avalanche counters values.

## **FULL REEL WILD**

Full Reel Wild symbol substitutes for all paying symbols during win evaluation.

Full Reel Wild symbols can only be created in the Countdown Bomb Feature and appear on reels 2-5.

Full Reel Wild symbols multiply the wins they are part of by their Wild Multipliers.

If 2 or more Full Reel Wild symbols are part of the same winning combination, their corresponding Wild Multipliers are multiplied by each other.

## **RESPIN FEATURE**

One or more Respin symbols appearing on reels 2-5 activate the Respin Feature. Each Respin symbol removes itself and 2-10 random non-winning paying symbols from the reels and activates an Avalanche.

This Avalanche contributes to decreasing the Avalanche counter of all Countdown Bomb symbols on the reels.

## **DEEP SEA FREE SPINS**

Bonus symbols can appear on any reel in the Base Game and Deep Sea Free Spins. Bonus symbols are collected into the Bonus Meter until no more Avalanches occur.

Bonus symbols on the reels are always collected at the end of the game round if the combined total of Bonus symbols collected in the Bonus Meter and on the reels is 3 or above.

3 or more Bonus symbols collected during one the Base Game spin activate the Deep Sea Free Spins.

3 Bonus symbols award 12 Deep Sea Free Spins. Each additional Bonus symbol awards 5 additional Deep Sea Free Spins.

In the Deep Sea Free Spins, there is a Multiplier that starts at x1 and is increased by 1 after each Avalanche.

All wins in the Deep Sea Free Spins are multiplied by the Multiplier.

Collecting 3 Bonus symbols in one Deep Sea Free Spin reactivates the Deep Sea Free Spins and awards 12 additional Deep Sea Free Spins, and each additional Bonus symbol adds 5 additional Deep Sea Free Spins.

The Deep Sea Free Spins are played with the same total Bet, awards and winning combinations as the spin which activated the Deep Sea Free Spins.

The Deep Sea Free Spins play automatically.

The Deep Sea Free Spins end when there are no Deep Sea Free Spins remaining, or when the win cap amount is reached.
