## VOLATILITY LEVELS™

### Choose your favourite game style

**Low volatility:** The payouts you receive in this mode are more frequent but in most cases smaller. This level is perfect for players who prefer shorter game sessions.

**Standard volatility:** This mode is a mixture between Low and High and is dedicated to players who are looking to feel the thrill of big wins in a fair frequency.

**High volatility:** In this mode you can hit BIG WINs but they are not as frequent as winning in Low mode. High is an excellent mode for players who are not afraid of taking a risk to win big.

### GAMBLE FEATURE

- The Gamble feature gives a chance to double each win.
- The Gamble feature can be activated only with the current win value during the ongoing game session.
- After activating the gamble feature, a player can:
  - take the win and end the gamble feature,
  - continue playing the gamble feature by selecting one of the two symbols.
- After selecting a symbol, a draw is made to determine the winning symbol.
- Each draw is independent of the previous one and has the same probability of winning.
- The player can end the gamble feature after each round.
- In the event of a loss, the player loses the win value specified in the Current win counter and returns to the main game.
- The Gamble feature can be played for a total of 7 rounds.
- The number of rounds in the Gamble feature depends on the max win available in the game.
- The win value from doubling up in the next round cannot be higher than: CAD 30,500

1.20

**Current win** – amount of win that can be taken.

2.40

**Double to** – win amount after a correct guess.

### ADDITIONAL INFORMATION

In the event of malfunction of the gaming hardware/software, all affected game bets and payouts are rendered void and all affected bets refunded.

The prizes are paid in accordance with the payout table available on the game interface.

Any game in progress will be completed after 24 hours and the corresponding prize, if any, will be deposited into the account. In the case of a bonus round, only the total winnings from games completed by the player at that time will be deposited into the account.
