## PAYS

The STAR remains in the center position during base game spins and is treated as a GREENBALL, BLUEBALL, GREYBALL in relation to win lines. There are no Jackpot or multiplier values associated with STAR. When GREENBALL lands on the reels, they will remain in place for the next two spins at the same bet level.

The GREENBALL visually changes with each remaining spin. The visual changes and number of remaining held spins are reflected in the table below:

Symbol	Remaining Spins
	2 Spins remaining
	1 Spin remaining
	Final Spin

Each GREENBALL, BLUEBALL, GREYBALL displays either MINI, MINOR Jackpot or one of the multipliers x1, x2, x3, x5, x10 or x20, associated to the bet level. When a win line is filled, any multipliers and or MINI, MINOR Jackpots displayed will be added together and awarded. Then the win line symbols will disappear on the next spin.

When only one space is left to complete a win line, the final space will be highlighted unless there is a symbol which is due to spin away on the next spin. When a GREENBALL lands, it will reset all symbols on the same column and row to GREENBALL, the multiplier on the symbol will remain the same.

Win lines that contain the STAR are Super Bingo win lines. Win lines that do not contain the STAR are Bingo win lines.

## INSTANT WIN

An Instant Win may be triggered on any spin, this will award the multiplier or MINI, MINOR Jackpot displayed on the GREENBALL. When an Instant Win is awarded, the symbol will be highlighted.

An Instant Win cannot be awarded to an upgraded symbol.
