- In the lobby, you may see other players in the same game sitting at a machine. By clicking such a machine, you are entering "spectator mode" and can watch a different player play. You are not able to influence the game which you are spectating in any way.

Playing

- The minimum bet per round is \$
- The maximum bet per round is \$
- The "Start" button begins a round of play.
- Each round is independent of previous rounds.
- All game outcomes are independent and randomly determined.
- When you start a round, the bet is deducted from the balance you've paid in.
- At the end of a round, the console displays your win, if any.
- A player cannot influence the result of a game by stopping the reel spins.

Win Lines

- This game has 5 reels and 10 win lines.
- You can find an overview of the win line pattern via "Paytable & Info".

Autoplay

Winnings

- Winning combinations and payouts are made according to the paytable.
- Symbol payout values shown in the paytable are dynamic and change in accordance with the selected bet value.
- The leftmost reel is reel 1, the rightmost reel is reel 5.
- All wins start on the leftmost reel and are for combinations of a kind, consecutive from left to right on selected lines, except Scatters.
- Only the highest win per line is paid. Line wins are added.
- "Mini/Minor/Major Jackpot" Pearl symbols are different representations of the Pearl symbol and substitute for it.

Bonus Symbols

- 6 or more Pearl symbols appearing anywhere on the reels trigger the Lock & Spin Feature.
- Dolphin symbol doubles win when substituting. It substitutes for all symbols except Pearl symbols.

RTP Range

- The theoretical RTP (return to player) value for this game is 95.00 %.
- The theoretical RTP is calculated as total win/total bet over a large number of games played and reflects the prizes awarded by a game as a percentage of all bets made. The actual RTP can vary widely in either direction for a small number of games due to statistical variance.

Connection Loss

- In case you lose your network connection, the game will proceed to complete the current round of play automatically after a delay of 2 hours absence from the game.
- If you reconnect into the game earlier, you are able to continue playing the current round.
- This includes all settings such as number of lines and bet.
- If this round contains multiple spins (e.g. free games feature), the game will determine your winnings based on the game's expected win values.

Malfunction voids all pays and plays.

The prizes are paid in accordance with the payout table available on the game interface.

Any game in progress for more than 2 hours will be completed and the corresponding prize, if any, will be deposited into the account.

GAME FEATURES

Lock & Spin Feature

- The Lock & Spin Feature starts with 3 Free Spins.
- Free Spins are played using the same bet as the spin which triggered them.
- The Free Spins counter is reset back to 3 with each new Pearl symbol appearing anywhere on the reels.
- All Pearl symbols are locked in place until the end of the feature.
- Any numeric value on a Pearl symbol will be paid out at the end of the Lock & Spin Feature.
- "Mini/Minor/Major Jackpot" Pearl symbols appearing anywhere on the reels in the Lock & Spin Feature trigger the corresponding jackpot payout (at the end of the Lock & Spin Feature).

Jackpots

- 0.95 % of every stake goes directly into the jackpots.
