Auto Spin Feature

Auto Spin plays the game automatically for a given number of spins at the current coin value.

For jurisdictions where Auto Spin is enabled: Select the number of auto spins and where available, the loss limit, and the (optional) single win limit.

After selecting the desired bet configuration, press **AUTO SPIN**, and choose how many spins to play at the current bet settings.

Auto Spin plays the specified number of spins until **STOP** is pressed, a bonus is triggered, the balance is insufficient to spin, or any enabled win/loss limit settings are reached.

Auto Spin is only available in approved jurisdictions.

Split Symbols Feature

In ***Diamond Spins Cats***, each Cat Symbol has a single and double symbol version. Single symbols have 1 cat on them. Double symbols, which use the *Split Symbols* feature, have 2 of the same cat on them. Single and double versions of each cat may appear on every reel. Winning outcomes are based on the number of matching cats on a payline (from left to right), not just the number of matching symbols. Match as few as 3 cats and as many as 10 cats for huge wins. Similarly, 3-symbol or 4-symbol wins may be awarded on just the first 2 reels.

In the *Split Symbols* feature, the Logo Symbol is wild and substitutes for all symbols except Paw and Double Paw Symbols. When substituting for any Cat Symbol, Logo Symbols are always evaluated using the *Split Symbols* feature - making these wild symbols worth 2 matching Cat Symbols.

Diamond Spins Bonus

Randomly, Diamond Symbols may overlay the reels on any base game spin.

The *Diamond Spins Bonus* is triggered when 5 or more Diamond Symbols appear anywhere on the reels.

The *Diamond Spins Bonus* can be triggered at any bet level.

Triggering the *Diamond Spins Bonus* awards an initial 3 respins.

Each Diamond Symbol that appears reveals either a cash prize value or a Progressive Symbol. All revealed cash prize values or Progressive Symbols are locked in position for the remainder of the bonus.

During each respin, additional Diamond Symbols may appear, revealing further cash prize values or Progressive Symbols.

Every time a Diamond Symbol appears, the respin counter is reset to 3 respins remaining.

Fill all 15 positions on the reel window to win the Grand Progressive.

Collect a Blue Diamond to win the Major Progressive.

Collect a Pink Diamond to win the Minor Progressive.

Each Maxi Diamond collected awards the Maxi Prize.

Each Mini Diamond collected awards the Mini Prize.

Collected cash prize values are added to the total win.

The *Diamond Spins Bonus* continues until no respins remain or until all 15 reel positions are filled.

During the initial *Diamond Spins Bonus* trigger, a maximum of 14 Diamond Symbols may appear on the reels.

The *Diamond Spins Bonus* cannot be retriggered.

Reels used in the *Diamond Spins Bonus* are different from the reels used in the base game.

The *Diamond Spins Bonus* is played at the same coin value as the triggering spin.

The *Diamond Spins Bonus* can only be triggered on a base game spin.

Free Spins Bonus

The *Free Spins Bonus* is triggered when 5 or 6 scattered paw prints appear anywhere on the reels. Paw and Double Paw Symbols appear on reels 2, 3, and 4 only.

Paw Symbols appear either as single symbols or double symbols which use the *Split Symbols* feature. 2 Double Paw Symbols and 1 Single Paw Symbol equal 5 paw prints. 3 Double Paw Symbols equal 6 paw prints.

Revealing 5 paw prints awards 5 free spins. 6 paw prints awards 10 free spins.

Reels used in the *Free Spins Bonus* are different from the reels used in the base game.

Free spins are played at same coin value and same number of paylines as the triggering spin.

The *Free Spins Bonus* cannot be retriggered.

Rules

Misuse or malfunction voids all pays and plays.

The prizes are paid in accordance with the payout table available on the game interface.

Depending on the certified configurations, the maximum winning limit indicated in the rules/help screens of the game might not be attainable.

Any game in progress for more than 30 days will be cancelled, and the corresponding bet will be refunded.

All line win symbols must appear on a played line and on consecutive reels, beginning with the far-left reel.

Only the highest winner is paid on each payline. Line wins are multiplied by the coin value on the winning line. Coinciding line wins on different paylines are added.

Scatter wins are independent from line wins and are added to the total amount paid.

The *Split Symbols* feature counts for 2 of that symbol in a winning outcome.

A winning outcome of Cat Symbols is based on the number of matching cats on that payline starting from left to right.

The Logo Symbol is wild and substitutes for all symbols except Paw and Double Paw Symbols.

Logo Symbols substitute using the *Split Symbols* feature when part of a winning outcome of cats.

Paw and Double Paw Symbols appear on reels 2, 3, and 4 in the base game only.

Bonus wins are independent from line wins and are added to the total amount paid.

The *Diamond Spins Bonus* is played on independent reels. All awards are scattered. No paylines are used.

Maxi Prize and Mini Prize awards are multiplied by the total bet. More than 1 Maxi Prize or Mini Prize can be won during the same *Diamond Spins Bonus*.

Grand, Major, and Minor Progressives can only be won once during the *Diamond Spins Bonus*. However, more than 1 Progressive can be won during the same *Diamond Spins Bonus*. With all accumulated wins awarded to the player.

Grand, Major, and Minor Progressives are shared progressives. The growth is funded by a fixed percentage of each bet placed by all players.

The likelihood of winning the Grand Progressive, Major Progressive, Minor Progressive, or bonus awards is not equal.

The odds of winning the Grand Progressive, Major Progressive, and Minor Progressive are proportional to the actual bet amount within an accuracy of 0.1%.

The amounts paid for the Grand, Major, and Minor Progressives are approximately the amount seen on the progressive meters when the win occurs. Potentially, the awarded progressive could be somewhat higher because of display delays. In an exceptionally rare case, 2 players may simultaneously win the same progressive. The order of winners is determined solely by the timestamp applied to each transaction request as it is received by our servers. The official winning outcome belongs to the player whose transaction timestamp is first. The player whose timestamp is second will win the progressive re-seed amount if their winning outcome occurred just after the other player's win, but before the meter was able to reset.

Wins are shown in currency.

In some jurisdictions, regardless of bet size, there may be an award cap on any single transaction. See the payable for details. A transaction includes the results of the bonus, plus the outcome which launched the bonus. If the award cap is reached in the bonus, the bonus ends immediately, even if there are remaining free spins.
