WILD SYMBOL

substitutes for all symbols except:

Wild symbols are available on reels 2, 3 & 4 in both the base game and the Free Spins bonus.

FREE SPINS BONUS

Bonus symbols are available on reels 1, 3 & 5 in the base game. 3 Bonus symbols anywhere in view triggers the Free Spins bonus. Upon entering the bonus, the player is awarded 8 Free Spins. The Free Spins are all played using the following 4 symbols:

FORTUNE BET

Fortune Bet can be activated by pressing the Fortune Bet button. Activating Fortune Bet increases the current bet by 50%.

When Fortune Bet is active, the chance of winning Free Spins is increased. When a Bonus symbol lands on reels 1 and 3, but not on reel 5, while the Fortune Bet is active, reel 5 will respin once to give another opportunity to land the final Bonus symbol needed for entry to the Bonus.

All wins are paid before the respin and then all wins are paid again after the respin.

The awards remain the same as the base bet awards.

The average payback over multiple game cycles in the Fortune Bet mode is 94.51%.

GAMBLE

The gamble can be configured to be on, on if the win is greater than or equal to 5x bet, or off.

If the gamble is on, any winnings awarded during the game will offer the gamble feature.

If the gamble is on and if the win is greater than or equal to 5x bet, any winnings greater than or equal to 5x bet awarded during the game will offer the gamble feature.

When the gamble is entered, two wheels are presented. The left wheel offers the chance to increase the winnings by one third, double the winnings, or triple the winnings.

The right wheel offers the chance to win Free Spins. The win value can be adjusted by pressing the '-' and '+' arrows, this in turn will adjust the winning and losing segments of the wheel.

Press either wheel during the feature to gamble your winnings and spin the pointer.

GAMBLE TO
\$88.00

GAMBLE

If the pointer stops on the green segment, the cash value or Free Spins are awarded.

If the pointer stops on the red segment, the player loses their winnings and exits to the base game.

When the potential winning area of the gamble wheel is at its minimum size the chance of success could be significantly less than the visual representation shown.

Winnings can be gambled up to a maximum win amount of x2500 bet or \$250,000.00, whichever is the lower value. Once the maximum win amount is reached, winnings are automatically collected and the gamble will be exited.

A maximum of 30 Free Spins can be achieved in the gamble for Free Spins wheel. Once this is reached, the Free Spins wheel is disabled, while the player is still able to gamble on the Cash wheel.

Collect
\$44.00

Press the 'COLLECT' button during the feature to collect your winnings.

The expected payback for the gamble game is 100%

SPIN CHANCE

Spin Chance is triggered automatically if the credit is reduced below the current price of play, yet is still greater than zero.

Spin Chance offers the player an opportunity to wager their remaining credit in an attempt at winning an additional base game spin at the current bet.

To play Spin Chance, select the 'PLAY' button to begin moving the pointer across the meter.

Alternatively, select the 'NO THANKS' button to exit Spin Chance with the remaining credit.

If the pointer stops on the green segment, a spin at the current bet is awarded and plays automatically.

If the pointer stops on the red segment, the player loses any remaining credit and exits to the base game.

The red and green segments are proportional to the amount of credit in relation to the current bet.

The chance of winning a spin is determined by this ratio.

BONUS BUY

Bonus Buy allows the player to purchase direct entry to the bonus feature.

Purchasing the feature immediately starts a game that guarantees 3 Bonus symbols will land in view.

Bonus Buy is purchased for 75x the current bet.
Feature awards are determined by the current bet.

The theoretical payback for an individual game cycle in the Bonus Buy mode is 94.52%.
