BASE GAME MODIFIER

If any of the picture symbols land in full view on the first reel, then the base game modifier will start. The first reel, along with any other matching symbols in view, will lock in place, while the other symbols spin again. If more matching symbols then land in view, these will also lock in place, and the rest of the symbols will spin again.

This repeats until a spin happens where no new matching symbols land in view. The player is then awarded any wins in view.

WIN & SPIN BONUS

When 6 or more Win & Spin symbols land in view during the base game, the Win & Spin bonus is activated. The number of Win & Spin symbols that landed in view is the starting position of the player on the trail. The Terminator will start 3 spaces behind the player.

All Win & Spin symbols lock in place for the duration of the Win & Spin bonus. The reels then spin and land. Only Win & Spin symbols or blank symbols can land. Any new Win & Spin symbols that land also lock in place for the duration of the Win & Spin bonus.

If any new Win & Spin symbols land in view, then the player moves along the trail. How many Win & Spin symbols land in view is how many spaces the player moves. The Terminator will stay in the same position. If no new Win & Spin symbols land in view, then the player stays where they are, and the Terminator moves along 1 space on the trail.

Bonus values: 1x, 2x, 3x, 4x, 5x, MINI, MINOR, MAJOR

There are 3 positions on the trail that contain supply packs. When a player lands, or passes over, one of these positions, the player is then presented with 3 options.

Picking one will reveal one of the following bonuses:

1. Extra Lives: The Terminator gets pushed back between 1-3 spaces
2. Collector: An additional symbol gets added to the board, with its value equal to the sum of the rest of the symbols, and the player moves 1 space along the trail
3. Upgrade Prize: A random number of symbols (excluding Collectors) on the board upgrade to either the Mini, Minor or Major Jackpot
4. Cash Boost: A random number of symbols (excluding Jackpots and Collectors) on the board will have either 5, 10 or 20x bet added to their value.

WIN & SPIN BONUS

The Win & Spin bonus ends when the Terminator catches up to the player or the board is filled. If the Terminator catches up to the player before the board is filled, then the player is paid the total of the Win & Spin symbol values in view.

If the player fills the board, they will get to spin the Grand Wheel, which contains values ranging from 50x to 1000x. Whatever value gets selected on the wheel is then added to the total of the Win & Spin symbol values in view, and the player is paid this amount.
