

1 Introduction

Respin 7's is a 5x3, 5-win line slot featuring a respin and Free Spins.

2 How to Play

Spin the reels by pressing the 'SPIN' button to try to achieve 3, 4 and 5 of a kind reel wins. Select the 'CHANGE STAKE' button to increase or decrease the size of the bet.

2.1 Autoplay

Press the 'AUTOPLAY' button to see the options. You must select the number of autoplay games, and your loss limit, before you have the option of starting the autoplay.

'Custom Loss Limit' refers to how much money you wish to lose before the auto play stops. For example, if you have \$50 in your balance, and you choose a \$20 loss limit, the auto play will stop as soon as your balance goes below \$30, even if you have auto play games remaining.

You can either choose to accept the suggested loss limit, which is your stake multiplied by the number of autoplay games you have selected, or manually type in a loss limit by pressing the 'Custom Loss Limit' button.

Choose the 'More settings' option if you wish to stop the autoplay when you win over a certain amount.

Select the 'AUTOPLAY' button during autoplays to stop them.

2.2 Turbo Mode

Enabling 'Turbo Mode' increases the speed of a game by speeding up the reel spin animation. This does not impact the outcome of the game.

3 Game Rules

All games are played with 5 win lines. Line wins pay left to right and right to left for all symbols for a line win to be awarded, symbols (or their substitute) must appear on adjacent reels starting on the left or right most reel.

Only the highest win is paid per winning symbol combination on each played line. Wins on different played lines are added.

The bonus win is added to any coincidental line wins. Only the highest kind of a bonus feature is awarded.

Your winnings will be credited to your account immediately.
You will lose your bet amount if you lose the game.

The wild symbols substitute for all symbols except the Bonus symbol and the Spin and Win symbol.

The wild symbol appears on all reels in the base game and free spins bonus.

To play Spin Chance, select the 'PLAY' button to begin moving the pointer across the meter. Alternatively, select the 'NO THANKS' button to exit Spin Chance with the remaining credit. If the pointer stops on the green segment, a spin at the current bet is awarded and plays automatically.

If the pointer stops on the red segment, the player loses any remaining credit and exits to the base game.

The red and green segments are proportional to the amount of credit in relation to the current bet. The chance of winning a spin is determined by this ratio.
