GAME OVERVIEW

Lucky Fish Finder is played on a 5x5 grid.
Click on a tile to reveal either a fish or a boot.
Each fish you reveal increases your prize.
After every successful pick, you can choose another tile if you still have picks remaining, or you can cash out.
If you reveal a boot, you will lose all the money you have accumulated and the game ends.

HOW TO PLAY

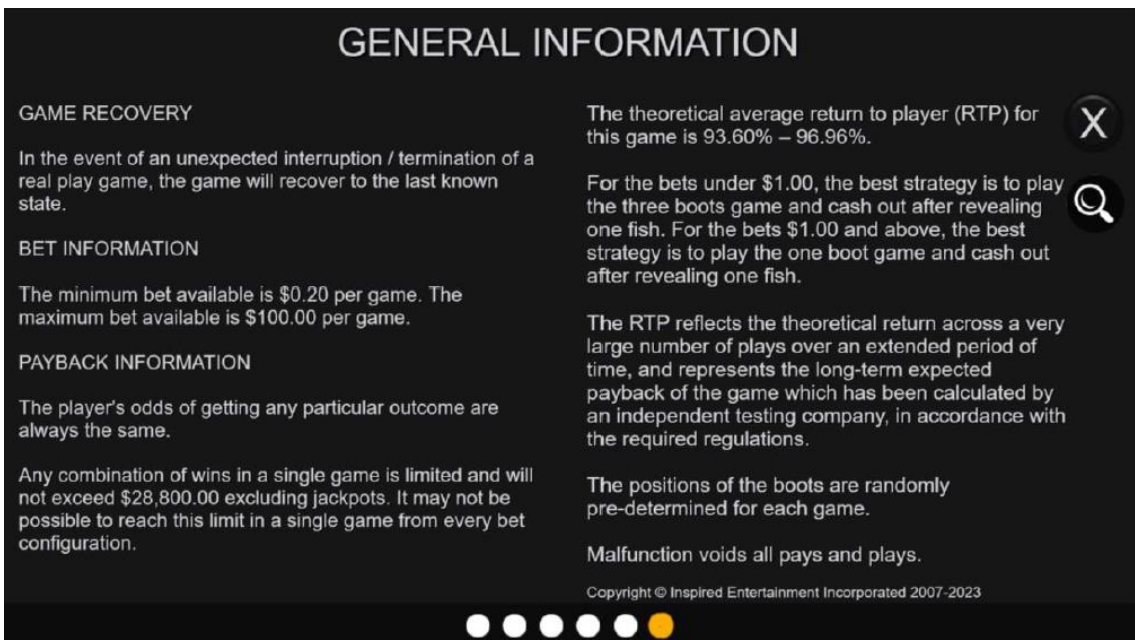

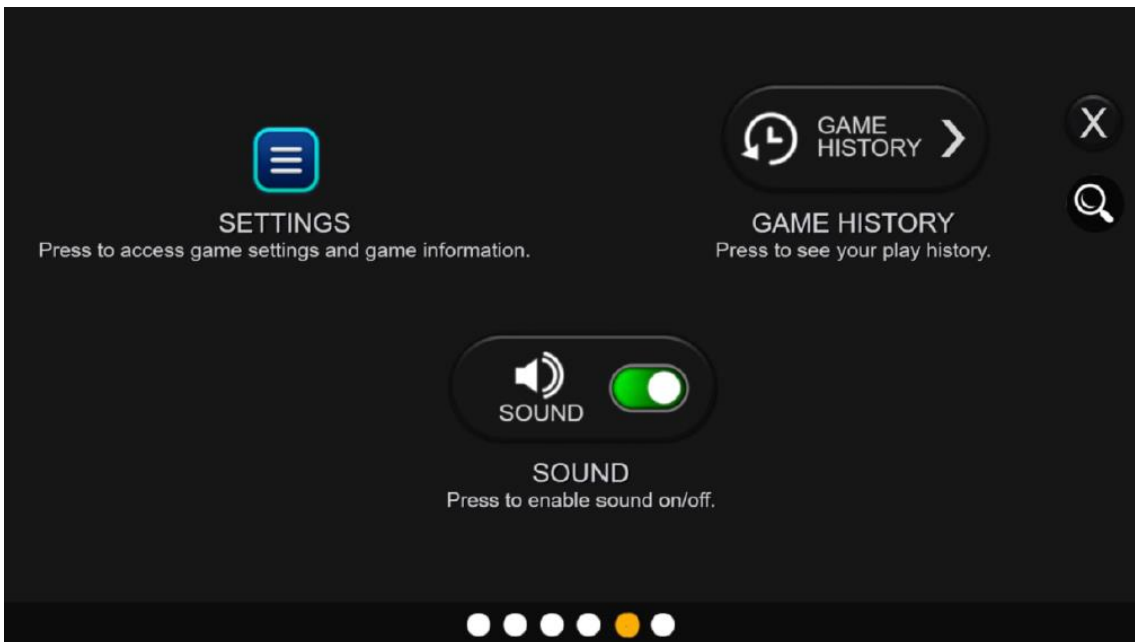

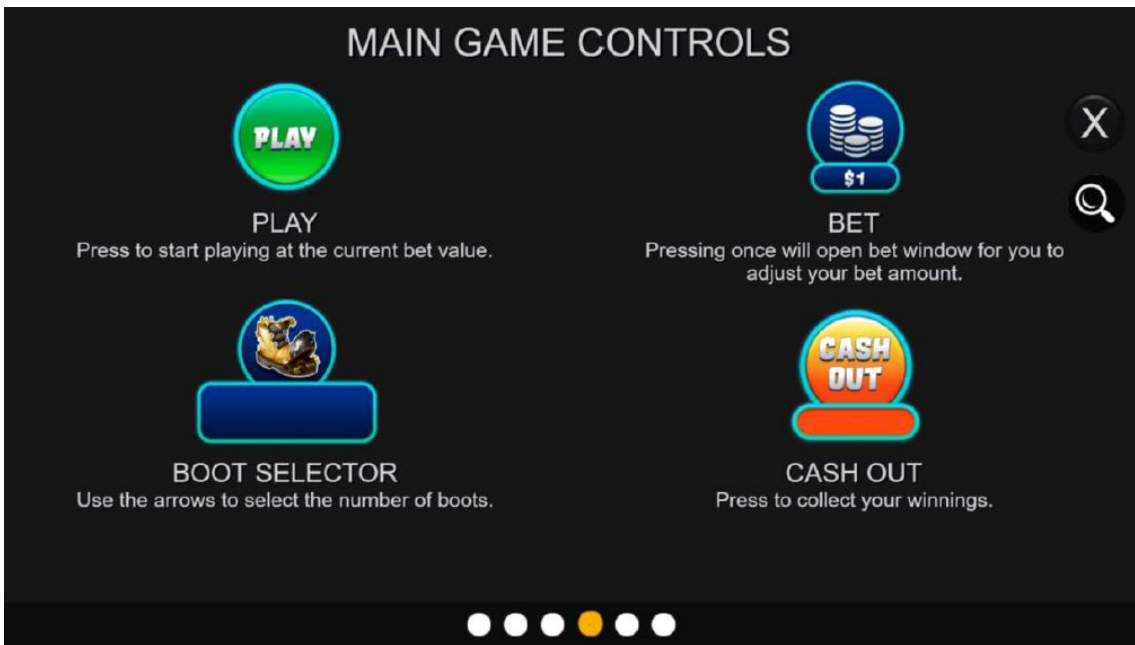

Before starting the game, choose your bet and a number of boots.
You can choose to have 1, 2, 3, 5, 7, 10 or 15 boots on the grid.
Choosing more boots means bigger prizes.
Press the Play button to start the game.
Press the tiles to choose a square to uncover.
Press CASH OUT to collect a win when available.

HOW TO PLAY

MAXIMUM WIN: This shows the amount the player will win if they successfully reveal all of the available fish.
PICKS REMAINING: This shows the number of remaining fish that the player could reveal.
NEXT WIN: This shows how much the player will win if they successfully reveal a fish on their next turn.
FOUND: This shows how many fish have been revealed so far, and the maximum number of fish that can be revealed.
Winning tiles that are selected display a multiplier which shows how much the player has won.
This value is multiplied by the total bet amount.

The prizes are paid in accordance with the payout table available on the game interface.

Any game in progress for more than 35 days will be cancelled, and the corresponding bet will be refunded.
