

FROZEN FORTUNES

HOW TO PLAY

- Click on the \$ button to select your stake. This is the bet-per-line multiplied by the number of lines.
- Pressing the spin button (circular arrow), or spacebar on a computer, will start each new spin.
- During each spin, the symbols will fall away and new symbols will fall down and stop at random positions.
- A win is credited if the combination of symbols appearing on the reels forms a line of 3, 4 or 5 matching symbols on one of the win lines.

REEL WINS

All line wins are derived from the number and value of matching symbols and multiplied by the value of the bet-per-line.

Matching symbols must be on a valid win line and on consecutive reels from left to right, starting on the far-left hand reel, to form a win. Only the highest line win is paid on each line.

Snowflake, Flash Freeze and other symbol wilds substitute for all symbols, except bonus scatter symbols.

FLASH FREEZE WILDS

On any spin, there is a chance that any snowflake wild that has landed on the reels can transform into a Flash Freeze wild.

Snow will launch from the Flash Freeze wild and hit 4 random surrounding symbols and freeze them into ice cubes. These will then all explode to reveal wild versions of the individual symbols.

This modifier can activate in the main game and Flying Fish Free Spins.

FLYING FISH FREE SPINS

Landing the Flying Fish bonus scatter symbols on reels 2, 3 and 4 will award Flying Fish Free Spins.

Choose one of the three shoals to see how many flying fish leap from the water. You will get one free spin for each flying fish, up to 30 free spins.

The awarded free spins will autoplay through once the first free spin has been initiated using the spin button.

There is an increased chance of the Flash Freeze wild modifier activating during Flying Fish Free Spins compared to the main game.

FISHING FOR FORTUNES

Landing the Fishing for Fortunes bonus scatter symbols on reels 1, 3 and 5 will award the Fishing for Fortunes Bonus.

Once clicked each of the 4 fisherman can catch fish that will award moves along the multiplier. Each fish will award a different number of moves, up to the rainbow fish that will award 10 moves when caught.

All the fisherman will continue to fish until their line snaps and they walk off the screen.

You will be awarded the multiplier highlighted when all 4 fishermen have snapped their lines. This will multiply your total stake (x5 to x500) to give the total win.

GAME RECOVERY

In the event of a game in real play being interrupted, (i.e. started but not completed due to connectivity issues or accidentally closing the browser, etc.), depending on the previous state of the game, it will either resume from the point of the last spin or display the outcome of the game already in play.

Any winnings will be correctly credited to the player account and will be exact according to the result prior to the game being interrupted.

All results are predetermined.

RETURN TO PLAYER

The theoretical Return To Player for this game is 96.01%.
