4.1 Re-Life Free Spins

- During the base game 3 or more scatters anywhere in view awards the bonus.
- All Re-Life spins bonuses begin with 3 lives represented as coins.
- Entering the bonus with 3 scatters starts the bonus with a 2x Multiplier
- Entering the bonus with 4 scatters starts the bonus with a 4x Multiplier
- Entering the bonus with 5 scatters starts the bonus with a 5x Multiplier
- Every losing spin a life is taken away. Once all lives are lost the player exits free spins.
- Every winning spin the lives are reset to 3.
- Every winning spin the multiplier increases to the next level on the ladder, up to a maximum of X50.
- On any spin where you only have 1 life remaining the Life Saver Spin will activate and a single WILD symbol will occupy reel 3. Due to the single WILD symbol on reel 3 this spin is played with 81 ways to win.
- All wins are multiplied by the current multiplier.

4.2 Spin Chance

- Spin Chance is triggered automatically if the credit is reduced below the current price of play, yet is still greater than zero. Spin Chance offers the player an opportunity to wager their remaining credit in an attempt at winning an additional spin at the current bet.
- To play Spin Chance, select the 'PLAY' button to begin moving the pointer across the meter.
- Alternatively, select the 'NO THANKS' button to exit Spin Chance with the remaining credit.
- If the pointer stops on the green segment, a spin at the current bet is awarded and plays automatically.
If the pointer stops on the red segment, the player loses any remaining credit and exits to the base game.
- The red and green segments are proportional to the amount of credit in relation to the current bet. The chance of winning a spin is determined by this ratio.
