After selecting the desired bet configuration, press **AUTO SPIN**, and choose how many spins to play at the current bet settings.

Winning the MegaJackpots Progressive

Every bet offers a chance to win the **MegaJackpots** progressive. The higher the bet, the better the odds of winning.

Win the Jackpot when 5 Golden Kisses are collected under each reel.

Golden Kiss symbols stay under the reels until the progressive is won or until the *Wild Stays 2 Plays* feature is activated for the reel that contains the Golden Kiss symbol.

It is possible to collect up to 5 Golden Kiss symbols. If 5 Golden Kiss symbols are collected **MegaJackpots** progressive is awarded, and Golden Kiss symbols collected are converted into Kiss symbols.

After every spin that doesn't award the Jackpot, a behind-the-scenes Second Chance drawing occurs that can also award the **MegaJackpots** progressive.

The odds of winning the Jackpot are proportional to the bet amount.

For example, a player playing at a 0.20 line bet has twice the chance of winning the **MegaJackpots** progressive as a player playing at a 0.10 line bet in the same game and currency. The expected return to player is the same for both players.

Synchronised Reels Feature

Each reel in **MegaJackpots Ocean Belles** includes large stacks of the same symbol.

Before each spin, a reel set with one of the stacked symbols is randomly selected.

Any symbol may appear in any stack, except the Bonus scatter symbol, the Red Kiss symbol and the Golden Kiss symbol.

The same symbol may appear in large stacks on multiple reels on the same spin.

Wild Stays 2 Plays Feature

Collect 2 Kiss symbols (any combination of Red Kiss or Golden Kiss symbols) on a reel to activate the *Wild Stays 2 Plays* feature.

A collector below each reel indicates how many Kiss symbols have been collected.

When 2 Kiss symbols have been collected, the reel on which the feature was triggered becomes Wild for the next 2 spins, after which the collector below the reel resets.

Player Decision Free Spins Bonus

The *Player Decision Free Spins Bonus* is triggered when three or more Bonus scatter symbols appear anywhere on the reels.

Choose from the three options displayed in the picker.

The options presented depend on how many Bonus symbols were on the reels when the bonus was triggered.

3 Bonus Symbols	4 Bonus Symbols	5 Bonus Symbols
30 free spins with 1 random Wild Reel	60 free spins with 1 random Wild Reel	90 free spins with 1 random Wild Reel
15 free spins with 2 random Wild Reels	30 free spins with 2 random Wild Reels	45 free spins with 2 random Wild Reels
5 free spins with 3 random Wild Reels	10 free spins with 3 random Wild Reels	15 free spins with 3 random Wild Reels

The bonus can be retrigged up to a maximum of 4 times.

Reels used in the *Free Spins Bonus* are different from the reels used in the base game.

Free spins are played at same total bet as the triggering spin.

Rules

Misuse or malfunction voids all pays and plays.

All line win symbols must appear on a played line and on consecutive reels, beginning with the far-left reel.

Only the highest winner is paid on each payline. Line wins are multiplied by the line bet on the winning line. Coinciding line wins on different paylines are added.

Kiss symbols appear in the base game only.

Bonus Scatter symbols appear in the base game and in the *Free Spins Bonus*. The bonus can be triggered up to 5 times (1 time + 4 retriggers) from a single spin.

Wins are shown in currency.

The prizes are paid in accordance with the payout table available on the game interface.

Any game in progress for more than 30 days will be cancelled, and the corresponding bet will be refunded.

In some jurisdictions, regardless of bet size, there is an award cap on any single transaction, excluding the **MegaJackpots** progressive. See the payable for details. A transaction includes the results of the *Free Spins Bonus* plus the outcome which launched the bonus. If the award cap is reached in the bonus, the bonus ends immediately, even if there are remaining free spins.

MegaJackpots Rules

When a player wins the Jackpot, a notification message appears. Customer service will contact the player within 24 hours with details of your Jackpot payout. The award verification may take up to 72 hours, and the win will not be reflected in your account balance. You may continue to play. It will not affect your Jackpot.

The amount paid after verification is approximately the amount seen on the Jackpot meter when the win occurs. Potentially, the awarded Jackpot could be somewhat higher because of display delays.

All applicable taxes and fees in connection with any winnings awarded to the player, and any other payments to the winning player are his/her sole responsibility. Winnings cannot be transferred, substituted, or redeemed for any other consideration.

Jackpot represents an increasing top award where the growth is funded by a fixed percentage of each bet placed by all players playing for the jackpot.

Additional Information

Lost Connection During Jackpot Win

In the unlikely event of a lost connection or game reset during a jackpot-triggering spin, the jackpot will be awarded. Notification of the jackpot win will not appear on the game screen when the game is reloaded, and the win will not be reflected in your account balance. Any standard wins will be reflected in your account balance. Continued play, whether in this game or any other, does not affect the jackpot payout. The Customer Service Team will contact you within 24 hours with the details of your jackpot payout. The award verification may take up to 72 hours.

Expected Payback

In accordance with fair gaming practices required in most legal jurisdictions worldwide, each and every game outcome is completely independent. The odds of getting any particular outcome are always the same.

The odds do not vary based on prior outcomes, bet size (except for the jackpot), balance size, time of day, day of week, etc. For example, if the top award is won on a given play of the game, the chances of winning the top award on the next play are exactly the same. Likewise, prior losses do not change future odds.

The expected payback reflects the theoretical return across a very large number of plays by numerous players over an extended period of time. The expected payback includes the positive effect of the jackpot. The larger the jackpot, the larger the expected return.

At reset the jackpot is \$500,000.00 and the expected return is 91.0%.

Example jackpots:	Long-term expected return:
\$750,000.00	92.0%
\$1,000,000.00	93.0%

The results for any given player over a play session can vary widely from this long-term, expected average in either direction. The fewer the number of games played, the wider the normal variance of actual payback that may be experienced.
