## SPIN CHANCE

Spin Chance is triggered automatically if the credit is reduced below the current price of play, yet is still greater than zero.

Spin Chance offers the player an opportunity to wager their remaining credit in an attempt at winning an additional base game spin at the current bet.

To play Spin Chance, select the 'PLAY' button to begin moving the pointer across the meter.

Alternatively, select the 'NO THANKS' button to exit Spin Chance with the remaining credit.

If the pointer stops on the green segment, a spin at the current bet is awarded and plays automatically.

If the pointer stops on the red segment, the player loses any remaining credit and exits to the base game.

The red and green segments are proportional to the amount of credit in relation to the current bet.

The chance of winning a spin is determined by this ratio.

## BONUS BUY

Bonus Buy allows the player to purchase direct entry to the bonus feature.

Purchasing the feature immediately starts a game that guarantees at least 3 scatter symbols to land in view.

Bonus Buy is purchased for 50x the current bet.

The theoretical payback for an individual game cycle in the Bonus Buy mode is 94.01%.
