Fortune Coin Feature

The *Fortune Coin* feature is triggered when 1 or more Coin Scatter Symbols appear anywhere on the reels. Coin Scatter Symbols may award 10x, 20x, 30x, 40x, 50x, 100x, 200x, 300x, 500x, or 1000x values multiplied by the coin value, trigger the *Free Spins Bonus*, or trigger the *Jackpot Bonus*.

During the base game, if 5 or more Coin Symbols trigger the *Fortune Coin* feature, up to 5 Coin Symbols may transform into **MegaJackpots Bonus Game Scatter Symbols**. If 5 Coin Symbols transform into **MegaJackpots Bonus Game Scatter Symbols**, the **MegaJackpots Bonus Game** is triggered.

The *Fortune Coin* feature is available in both the base game and the *Free Spins Bonus*.

Winning the MegaJackpots Progressive

Every bet offers a chance to win the **MegaJackpots** Progressive. The higher the bet, the better the odds of winning.

The odds of winning the Jackpot are proportional to the actual bet amount. Therefore, the game is completely fair, offering the same odds per amount bet per currency.

For example, a player playing at a 0.20 coin value has twice the chance of winning the Jackpot as a player playing at a 0.10 coin value in the same game and currency. The expected return to player is the same for both players.

See Rules for information regarding payout.

MegaJackpots Bonus Game

The **MegaJackpots Bonus Game** is triggered when 5 Coin Symbols in the *Fortune Coin* feature transform into **MegaJackpots** Bonus Game Scatter Symbols. The **MegaJackpots Bonus Game** can be triggered from the base game only.

If the award cap is reached in the bonus, the bonus ends immediately, even if there are remaining free spins.

MegaJackpots Rules

When a player wins the Jackpot, a notification message appears. Customer service will contact the player within 24 hours with details of your Jackpot payout. The award verification may take up to 72 hours, and the win will not be reflected in your account balance. You may continue to play. It will not affect your Jackpot.

The amount paid after verification is approximately the amount seen on the Jackpot meter when the win occurs. Potentially, the awarded Jackpot could be somewhat higher because of display delays.

In an exceptionally rare case, two players may simultaneously win **MegaJackpots**. The order of the winners is determined solely by the timestamp applied to each transaction request as it is received by the **MegaJackpots** server. The official **MegaJackpots** winning outcome belongs to the player whose transaction timestamp is first. The player whose timestamp is second may win the jackpot Re-Seed Amount if their **MegaJackpots** winning outcome occurred just after the other player's **MegaJackpots** win, but before the **MegaJackpots** meter was able to reset.

All applicable taxes and fees in connection with any winnings awarded to the player, and any other payments to the winning player are their sole responsibility. Winnings cannot be transferred, substituted, or redeemed for any other consideration.

Jackpot represents an increasing top award where the growth is funded by a fixed percentage of each bet placed by all players playing for the jackpot.
