

THE WOLF TRAIL

BETS

Bet cost: \$0.10, \$0.20, \$1, \$2, \$5, \$10, \$20, \$30, \$50

INTRODUCTION

- Press PLAY and the symbols will fall into place on the 5x3 game board. Find a winning pattern of identical symbols to win a prize! Each time a winning pattern is displayed, those symbols will be destroyed and new symbols will fall into place from above.

- Find a winning pattern whilst a multiplier symbol is on the board to multiply your win by that amount.

- Reveal 3 Bonus symbols to unlock the Bonus Game.

- Reveal 3 Free Games symbols to unlock 10 Free Games.

HOW TO PLAY

Press PLAY and the symbols will fall into place on the 5x3 game board. If a winning pattern is revealed:

- Those symbols are destroyed
- New blocks fall from the top to fill the gaps created

If the new symbols that get added lead to a new winning pattern, the process continues until no winning patterns are present. Once no winning patterns are present, the total is awarded to the player.

START THE GAME

Select the play amount, then press PLAY to purchase the tickets and start the game.

Once the PLAY button has been selected the stake is deducted from the current balance and the game starts.

END THE GAME

At the end of the game, any winnings for that go are displayed in the TOTAL WON panel.

To play again press the PLAY button or press the Space bar on your keyboard.

FREE GAMES

Find 3 symbols to unlock free games. 10 Free Games will then play out automatically.

BONUS GAME

- Finding 3 symbols on one game board activates the BONUS Game.
- The BONUS GAME starts with a grid of 15 non-winning paw blocks and 3 GOES on the counter.
- Each time GO is pressed a new set of blocks drops onto the game board and the number of GOES reduces by 1 (if AUTO PLAY is pressed the GOES will happen automatically after each other).
- Blocks that enter the board can either be non-winning paw blocks or Multiplier Wolf blocks.
- If any Multiplier blocks are revealed, they stick in that position on the game board and the number of GOES resets to 3. Irrespective of the quantity of Multiplier blocks revealed in a single GO, the GOES will always reset to 3.
- On the next GO, new blocks will enter the board filling the spaces vacated by dropping non-winning blocks from the previous GO. Multiplier blocks from the previous GO remain on the board in the same position.
- The game continues until the GOES counter gets to 0 (which occurs after 3 drops in a row with no new Multiplier blocks added in those drops) or when the entire board is filled with Multiplier blocks.
- At the end of the game any Multiplier blocks are added together to be the TOTAL MULTIPLIER (e.g. if there are 3 different Multipliers on the board at the end of the game with values x1, x2 and x5 the TOTAL MULTIPLIER will x8)
- The PLAY AMOUNT is multiplied by the TOTAL MULTIPLIER and this is the prize awarded. The game then ends.

BLITZ BONUS

Reveal 3 (blitz symbol image) symbols anywhere on the game board to activate the BLITZ BONUS!

In the BLITZ BONUS there are 12 Lightning Symbols.

Clicking a Lightning Symbol reveals a prize amount or a symbol

The game ends when 3 like prize amounts are revealed. When 3 like prize amounts are revealed, the player wins a prize equal to one of those prize amounts. Other revealed prizes are not awarded.

If 3 like  symbols are revealed, the player wins the BLITZ BONUS JACKPOT prize amount. Other revealed prizes are not awarded and the game ends.

WINNING PATTERNS

Revealing a cluster of 3 or more matching symbols where each symbol is directly above, below, or to the left or right of another matching symbol (diagonals do not count) wins the corresponding prize in the Prize Chart.

PRIZE CHART

The Prize Chart can be viewed by pressing the PRIZE CHART button.

Prizes shown in the Prize Chart are the multiple of amount staked.

Only the highest prize won on each cluster will be paid.

AUTOPLAY

Press the AUTO PLAY button to open the auto play interface. The following settings are available to define how many auto spins you would like to play:

- Number of plays – total number of games that will be played at the current stake.
- Loss limit – auto play will stop when you hit your loss limit, which can be set as a multiple of your current bet stake. If you don't want a loss limit, simply select the 'infinity' symbol at the end of the row.
- Single win limit – auto play will stop when you hit a single win limit, which is set as a multiple of your current stake. If you don't want a single win limit, simply select the 'infinity' symbol at the end of the row.
- Once you have defined your settings of choice, press 'SET AUTO PLAY' to start your auto play session at the currently selected stake.
- Press the stop button at any time to stop any auto play games once the current round is completed.

WINNING

- Wins are achieved by:
- Revealing a winning pattern on the main game board
- BONUS GAME – Revealing Multiplier blocks on the Bonus Game board.

MULTIPLIER

If a multiplier symbol is on the board when a winning pattern is revealed that multiplier gets added to the Multiplier Total for that game. If more than 1 MULTIPLIER symbol is revealed the multipliers are added together.

Multipliers that enter onto the board after a winning pattern is cleared are not added to the Multiplier Total unless a new winning pattern is created by the new blocks that enter the board.

At the end of the game round (i.e. when no more winning patterns are present) the win amount for that round is multiplied by the Multiplier Total.

The Multiplier Total resets to x1 after each game round.

Multipliers are not applied to any wins within the Bonus Game.

PAYOFF RATE

This game has a theoretical payoff rate of **89.0 %**.

3.00% of total game stakes contribute to funding the jackpot amounts, which includes the starting jackpot values. The theoretical average return to player (RTP) of the non-jackpot element of the game is 89.00%. The additional jackpot contribution of 3.00% results in a total combined RTP of 92.00% for the game as a whole.

The BLITZ JACKPOT starts at \$250 and will reset to \$250 when won.

GENERAL INFORMATION

- This game is a game of chance.
- The outcome of a play in the game is pre-determined.
- Note that your playing skills or the choices made during a game have no incidence on the outcome of the game, nor the odds of winning a prize.
- Malfunction voids all pays and plays.
- The prizes are paid in accordance with the payout table available on the game interface.
- Any game in progress for more than 24 hours will be completed and the corresponding prize, if any, will be deposited into the account.
