Winlines

The following is a chart of the 20 win-line paths available for selection. When a win line is selected it is accompanied by an animation which clarifies its position. A minimum of three consecutive icons from left to right on an active win line is required to win.

Features

A Green “7” (Wild) substitutes for any Icon (except Cheese Scatter symbols). A Green “7” wild symbol doubles (X2) the value of a win it is part of (free spins included).

If 3 or more scatter icons (Cheese symbol) appear ANYWHERE in the result of a game, the free play feature is triggered. The number of lines selected for play does not affect the way the scatters are triggered; the scatter icons can appear in any of the 15 visible reel positions.

The Wild Green “7” symbol does not count as a Scatter Icon

You need at least 3 scatters in a single result to trigger the Free Play feature. How many free plays you get depends on how many scatter icons trigger the feature:

- 3 scatters = 15 free plays - plus x2 the total bet that triggered the free plays*
- 4 scatters = 20 free plays - plus x3 the total bet that triggered the free plays*
- 5 scatters = 25 free plays - plus x10 the total bet that triggered the free plays*

Free plays are free spins that start automatically and consecutively until they are exhausted. If you get 3 or more scatter icons in a single spin during the free plays, you will receive the line bet bonus as described above and the extra free plays will be added to the existing total and played out immediately after the first set of free plays. Extra free plays are possible more than once in a feature.

The bet and number of lines selected in the game that triggered the free plays will be used for the duration of the free play period.

Total free spins available to the player cannot exceed 999 at any given time. If a player wins free spins that would exceed this amount, they will receive enough spins to reach 999 and any excess free spins are forfeited.

Game Rules

Only the highest win per bet line is paid.

Line wins will pay from left to right only.
