### Information

Way wins are awarded for adjacent symbol combinations, according to the information in the paytable and game rules. When winning on multiple ways in a single game round, all winnings are added together. All winnings from Features (such as Free Spins, Bonus Games and/or Scatters (if applicable)) are also added to way wins. All winning combinations are paid out at the end of a game round. Free Spin features are played with the same bet as the game round that triggered the feature – unless otherwise stated. The bet cannot be changed during a currently running game round. Please refer to the game rules for more information. All wins pay left to right, beginning with the left-most reel. Only the highest win is paid per winning symbol combination. Scatter symbol wins (where applicable) pay for any winning combination including any gaps.
