**Autoplay**

- Clicking on "Auto" starts automatic spins.
- If "Autoplay" is activated the button label becomes green. Clicking it again stops the automatic spins.
- Autoplay stops automatically when the total bet is higher than your current funds.
- Autoplay stops when the Jackpot Diamonds feature is awarded.

**Winnings**

- Winning combinations and payouts are made according to the payable.
- Symbol payout values shown in the payable are dynamic and change in accordance with the selected bet value.
- All prizes are for combinations left to right and right to left.
- All wins pay only on lines in play.
- Highest prize only per pay direction. 5 of a kind prizes paid only once.
- Line wins are added.

**Bonus Symbols**

- Star (Wild) symbol substitutes for all symbols on all positions of the reel.
- Star (Wild) symbol expands, holds the reel and triggers a respin of the other reels. Star (Wild) symbol appears on reels 2, 3 and 4 only.

**RTP Range**

- The theoretical RTP (return to player) value for this game is 95.48 %.
- The theoretical RTP is calculated as total win/total bet over a large number of games played and reflects the prizes awarded by a game as a percentage of all bets made. The actual RTP can vary widely in either direction for a small number of games due to statistical variance.

**Connection Loss**

- In case you lose your network connection, the game will proceed to complete the current round of play automatically after a delay of 2 hours absence from the game.
- If you reconnect into the game earlier, you are able to continue playing the current round.
- This includes all settings such as number of lines and bet.
- If this round contains multiple spins (e.g. free games feature), the game will determine your winnings based on the game's expected win values.

Malfunction voids all pays and plays.

**GAME FEATURES**

**Jackpots**

- The Jackpot Diamonds feature is triggered randomly on any non-winning spin.
- In the Jackpot Diamonds feature, pick cards to uncover Jackpot Gems.
- Once three matching Jackpot Gems have been uncovered, the respective Jackpot is awarded!
- 1.0 % of every stake goes directly into the jackpots.
- Players playing the maximum stake will be eligible to win the total jackpot. Lower staking players will win a proportion of the total jackpot relative to the stake placed.
- The amount you are eligible to win will be shown in the jackpot banks.
- When some or all of a jackpot is won, it is reset to the base win for your stake, plus the current total contributions you are eligible to win.
- Each Jackpot is the sum of its base win plus the contributions from all players to this Jackpot.
- The base win of each Jackpot depends on your stake. The base win is 5000 times your stake for the Diamond Jackpot, 1250 times your stake for the Red Gem Jackpot, 200 times your stake for the Blue Gem Jackpot, and 50 times your stake for the Green Gem Jackpot.
- It is not possible for two players to win a jackpot simultaneously. In instances of apparent simultaneous wins, the games are time-stamped and the first player to trigger the win is awarded the jackpot.
- Subsequent players win the base win for their selected stake, plus any new contributions.
- There is no ceiling value for the jackpots.
- The base currency of this game may be different to the currency of your account. When that is the case, the progressive jackpot is shown at its current value in your account currency. That amount may go up or down depending on fluctuations in exchange rates.
- In case this game is withdrawn from our offer, your jackpot contribution will be transferred to other certified games with similar jackpots.

**Gambling**

- With your current stake, a maximum of \$ 500.00 can be bet while gambling.
- For higher wins or during autoplay, gambling is not possible.
- Gambling is not possible after a jackpot win.
