Winning the MegaJackpots Progressive

Every bet offers a chance to win the **MegaJackpots** progressive. The higher the bet, the better the odds of winning.

Win the Progressive with 5 **MegaJackpots** symbols on the centre payline on any base game spin or on any free spin in the *Cleopatra Bonus*. This combination awards only the MegaJackpots Progressive.

After every spin that doesn't award the Progressive, a behind-the-scenes Second Chance drawing occurs that can also award the **MegaJackpots** progressive.

MegaJackpots progressive seed amount is 500,000\$. 0.5% of the player's total bet is collected and added to this amount. An additional 3% of this bet is collected and retained as a contribution to the next progressive seed stage fund. When the

progressive is won, the prize fund is reset to its seed amount.

The odds of winning the Progressive are proportional to the actual bet amount.

If 5 **MegaJackpots** symbols appear on a payline other than the centre payline, then the standard payable award for a 5 **MegaJackpots** symbol is won.

The *Cleopatra Bonus* is triggered by getting three or more Sphinx scatter symbols anywhere on the reels.

Triggering the *Cleopatra Bonus* awards 15 free spins. All wins, except the 5 **MegaJackpots** award and the progressive, are tripled in the Bonus.

Retrigger the *Cleopatra Bonus* by getting three or more Sphinx scatter symbols anywhere on the reels during the bonus. The bonus can be retriggered multiple times, up to a maximum of 180 free spins per bonus.

Rules

Misuse or malfunction voids all pays and plays.

All line win symbols must appear on a played line and on consecutive reels, beginning with the far left reel.

Only the highest winner is paid on each payline. Line wins are multiplied by the line bet on the winning line. Coinciding line wins on different paylines are added.

Scatter wins pay in any position. Scatter wins are multiplied by the total bet. Only the highest scatter win is paid. Scatter wins are multiplied by the total bet. Scatter wins are independent from line wins and are added to the total amount paid.

Wins are shown in currency.

The prizes are paid in accordance with the payout table available on the game interface.

If one or more **MegaJackpots** symbols substitute in a line win, that win is doubled, except when the line win consists of only **MegaJackpots** symbols.

When you win the **MegaJackpots** Progressive, a message appears to notify you that customer service will contact you within 24 hours with details of your Progressive payout. The win verification may take up to 72 hours, during which time the win amount will not be reflected in your account balance. Once you confirm you have read this message, the game will end, and any standard wins will be paid. You may continue to play this game or any other game. It will not affect the payment of your Progressive.

The amount paid after a verified **MegaJackpots** Progressive win is approximately the amount seen on the **MegaJackpots** Progressive meter when the win occurs. Potentially, the actual amount paid for a **MegaJackpots** Progressive win could be somewhat higher because of communication and display delays.

In an exceptionally rare case, the win value could be the **MegaJackpots** Progressive seed amount if player's winning outcome is received by the central server immediately prior to another player's winning outcome. It is theoretically possible for this to occur even though the **MegaJackpots** Progressive meter did not yet display the meter reset caused by the first player's win. The order of winning is solely determined by the timestamp applied to each transaction request upon receipt by the Progressive server.

All applicable taxes and fees in connection with any winnings awarded to you and any other payments are the sole responsibility of the player. Winnings cannot be transferred, substituted, or redeemed for any other consideration.

The casino or **MegaJackpots** administrator may deactivate this game and/or its linked Progressive at any time. The casino or **MegaJackpots** administrator may increase or decrease the size of the **MegaJackpots** Progressive win by contributing or removing money at any time.

The **MegaJackpots** Progressive meter represents an increasing top award where the rate of growth is based on a fixed proportion of all bets and any additional funds added by the **MegaJackpots** administrator.

[Additional Information](#)

[Lost Connection During Progressive Win](#)

In the unlikely event of a lost connection or game reset during a Progressive-triggering spin, the Progressive will be awarded.

Notification of the Progressive win will not appear on the game screen when the game is reloaded, and the win will not be reflected in your account balance. Any standard wins will be reflected in your account balance. Continued play, whether in this game or any other, does not affect the Progressive payout. The Customer Service Team will contact you within 24 hours with the details of your Progressive payout. The award verification may take up to 72 hours.

These rules may be amended or updated at any time by the casino, in which case revised rules will be made available to players.

The casino reserves the right to adjust at any time the **MegaJackpots**

Progressive amount to reflect the bets placed and awards won.

In addition to the features described in the How to Bet section, the Controls Bar on the bottom of the game screen displays the current balance in currency, the amount paid if a win occurs, and the amount bet on the last/current proposition.

Expected Payback

In accordance with fair gaming practices required in most legal jurisdictions worldwide, each and every game outcome is completely independent. The odds of getting any particular outcome are always the same.

The odds do not vary based on prior outcomes, bet size (except for the Progressive), balance size, time of day, day of week, etc. For example, if the top award is won on a given play of the game, the chances of winning the top award on the next play are exactly the same. Likewise, prior losses do not change future odds.

The expected payback reflects the theoretical return across a very large number of plays by numerous players over an extended period of time. For this game type, the long-term base game theoretically expected payback (i.e. excluding progressive contributions) is 88.89%. The results for any given player over a play session can vary widely from this long-term, expected average in either direction. The fewer the number of games played, the wider the normal variance of actual payback that may be experienced.
