RULES

Scatter wins and line wins are added.
Highest win only paid on each selected line and per scatter combination.
Scatter symbols in view trigger Free Spins.
The payable always shows the prizes for the currently selected bet and number of lines.
All wins start on the leftmost reel and are for combinations of a kind, consecutive from left to right on selected lines, except Bonus scatters.
Free Spins are played at the trigger bet and lines.

With current bet it is possible to gamble any win up to 100 times with a maximum stake of \$75,000.00. For higher wins or during autoplay, gambling is not possible.
The minimum possible bet is \$0.20.
The theoretical RTP is 94.53% - 95.05%.

All game outcomes are independent and randomly determined. The actual RTP is calculated as Total Win / Total Bet over a large number of games played and reflects the prizes awarded by a game as a percentage of all bets made. The expected RTP can vary widely in either direction for a small number of games due to statistical variance.

Malfunction voids all pays and plays.

GAME RULES

- This page contains information on how to play this game.
- Please scroll down to read through all topics.

Getting started

- When you start the game, you enter a lobby where you can choose a machine to play this game. Simply click on "Play now" or a vacant machine to begin playing!
- This game is a game for one player - the gameplay of other players does not affect yours. Each game starts when you place a bet and ends when you leave the application.
- In the lobby, you may see other players in the same game sitting at a machine. By clicking such a machine, you are entering "spectator mode" and can watch a different player play. You are not able to influence the game which you are spectating in any way.

Playing

- You choose the total bet per round via the "Total Bet" button.
- The minimum bet per round is \$ 0.20.
- The maximum bet per round is \$ 12 000.00.
- The "Start" button begins a round of play.
- Each round is independent of previous rounds.
- All game outcomes are independent and randomly determined.
- When you start a round, the bet is deducted from the balance you've paid in.
- At the end of a round, the console displays your win, if any.

Win Lines

- This game has 5 reels and 10 win lines.
- You can find an overview of the win line pattern via "Paytable & Info".

Autoplay

- Clicking on "Auto" starts automatic spins.
- If "Autoplay" is activated the button label becomes green. Clicking it again stops the automatic spins.
- Autoplay stops automatically when the total bet is higher than your current funds.
- Autoplay stops automatically when a feature is awarded.

Winnings

- Winning combinations and payouts are made according to the paytable.
- Symbol payout values shown in the paytable are dynamic and change in accordance with the selected bet value.
- All wins start on the leftmost reel and are for combinations of a kind, consecutive from left to right on selected lines, except Scatters.
- Scatter symbols in any position trigger the feature game.
- Highest win only paid on each selected line and per scatter combination.
- Scatter wins and line wins are added.
- The probability of winning the maximum win per payline is 1 in 553,599,920.

RTP Range

- The theoretical RTP (return to player) value for this game is 94.53 % - 95.05 %.
- The theoretical RTP is calculated as total win/total bet over a large number of games played and reflects the prizes awarded by a game as a percentage of all bets made. The actual RTP can vary widely in either direction for a small number of games due to statistical variance.

Connection Loss

- In case you lose your network connection, the game will proceed to complete the current round of play automatically after a delay of 2 hours absence from the game.
- If you reconnect into the game earlier, you are able to continue playing the current round.
- This includes all settings such as number of lines and bet.
- If this round contains multiple spins (e.g. free games feature), the game will determine your winnings based on the game's expected win values.

Malfuction voids all pays and plays.

The prizes are paid in accordance with the payout table available on the game interface.

Player choices made during gameplay do not affect the game's outcome.

Any game in progress for more than 2 hours will be completed and the corresponding prize, if any, will be deposited into the account.

If there are any remaining free games after a disconnection, they will be paid according to the expected wins.
