Diamond Spins Feature

Randomly, Diamond symbols may overlay the reels on any base game spin.

5 or more Diamond symbols landing anywhere on the reels trigger the *Diamond Spins Bonus*.

The *Diamond Spins Bonus* can be triggered at any bet level.

Triggering the *Diamond Spins Bonus* awards an initial 3 respins.

Each Diamond symbol that lands reveals either a bet multiplier or a Progressive symbol. All revealed bet multipliers or Progressive symbols are locked in position for the remainder of the bonus.

During each respin, additional Diamond symbols may land, revealing further bet multipliers or Progressive symbols.

Every time a Diamond symbol lands, the respin counter is reset to 3 respins remaining.

Fill all 15 positions on the reel window to win the Grand Progressive.

Collect 3 Blue Diamonds to win the Major Progressive.

Collect 3 Pink Diamonds to win the Minor Progressive.

Each Maxi Diamond collected awards the Maxi Bonus.

Each Mini Diamond collected awards the Mini Bonus.

Collected total bet multiplier values are added to the total win.

The *Diamond Spins Bonus* continues until no respins remain or until all 15 reel positions are filled.

During the initial *Diamond Spins Bonus* trigger, a maximum of 14 Diamond symbols may appear on the reels.

The *Diamond Spins Bonus* cannot be retriggered.

Reels used in the *Diamond Spins Bonus* are different from the reels used in the base game.

The *Diamond Spins Bonus* is played at the same coin value as the triggering spin.

The *Diamond Spins Bonus* can only be triggered on a base game spin.

Cleopatra Bonus

Trigger the *Cleopatra Bonus* when three or more Sphinx scatter symbols appear anywhere on the reels.

Sphinx scatter symbols appear on reels 1, 2, 3, 4 and 5.

Triggering the *Cleopatra Bonus* awards 15 free spins.

All wins, except 5 Cleopatra symbols, are tripled in the bonus.

If three or more Sphinx scatter symbols appear anywhere on the reels during a free spin, an additional 15 free spins are added to the current *Free Spins Bonus* (up to a maximum of 180 total free spins within a single bonus round).

Free spins are played at the same coin value and same number of paylines as the triggering spin.

Rules

Misuse or malfunction voids all pays and plays.

The prizes are paid in accordance with the payout table available on the game interface.

All line win symbols must appear on a played line and on consecutive reels, beginning with the far-left reel.

Only the highest winner is paid on each payline. Line wins are multiplied by the coin value on the winning line. Coinciding line wins on different paylines are added.

Only the highest scatter win is paid. Scatter wins are multiplied by the total bet.

When one or more Cleopatra wild symbols substitute in a win, that win is doubled.

Scatter and bonus wins are independent from payline wins and are also added to the total amount paid.

The *Diamond Spins Bonus* is played on independent reels. All awards are scattered. No paylines are used.

Maxi Bonus, Mini Bonus, and bet multipliers awards are multiplied by the total bet. More than one Maxi Bonus or Mini Bonus can be won during the same *Diamond Spins Bonus*.

Grand, Major, and Minor Progressives can only be won once during the *Diamond Spins Bonus*. However, more than one Progressive can be won during the same *Diamond Spins Bonus*. With all accumulated wins awarded to the player.

Grand, Major, and Minor Progressives are shared progressives. The growth is funded by a fixed percentage of each bet placed by all players.

The likelihood of winning the Grand Progressive, Major Progressive, Minor Progressive, or bonus awards is not equal.

The odds of winning the Grand Progressive, Major Progressive, and Minor Progressive are proportional to the amount wagered.

For example, a player playing at a 0.20 coin value has twice the chance of winning the Grand Progressive as a player playing at a 0.10 coin value in the same currency. The expected return to player is the same for both players. Therefore, the game is completely fair, offering the same odds per amount per bet currency.

The amounts paid for the Grand, Major, and Minor Progressives are approximately the amount seen on the progressive meters when the win occurs. Potentially, the awarded progressive could be somewhat higher because of display delays. In an exceptionally rare case, two players may simultaneously win the same progressive. The order of winners is determined solely by the timestamp applied to each transaction request as it is received by our servers. The official winning outcome belongs to the player whose transaction timestamp is first. The player whose timestamp is second will win the progressive re-seed amount if their winning outcome occurred just after the other player's win, but before the meter was able to reset.

Wins are shown in currency.

Any game in progress for more than 30 days will be cancelled, and the corresponding bet will be refunded.

In some jurisdictions, regardless of bet size, there is an award cap on any single transaction, excluding the Grand, Major, and Minor Progressives. See the paytable for details. A transaction includes the results of the bonus, plus the outcome which launched the bonus. If the award cap is reached in the bonus, the bonus ends immediately, even if there are remaining free spins.

Additional Information

Lost Connection During Jackpot Win

In the unlikely event of a lost connection or game reset during a jackpot-triggering spin, the jackpot will be awarded. Notification of the jackpot win will not appear on the screen when the game is reloaded, and the win will not be reflected in your account

balance. Any standard wins will be reflected in your account balance. Continued play, whether in this game or any other, does not affect the jackpot payout.

Expected Payback

In accordance with fair gaming practices required in most legal jurisdictions worldwide, each and every game outcome is completely independent, except in cases where one spin unlocks a feature for a subsequent spin or series of spins, per the game rules. The odds of getting any particular outcome are always the same.

The odds do not vary based on prior outcomes, bet size (except the progressives), balance size, time of day, day of week, etc. For example, if the top award is won on a given spin of the game, the chances of winning the top award on the next spin are exactly the same. Likewise, prior losses do not change future odds.

The expected payback reflects the theoretical return across a very large number of spins by numerous players over an extended period of time. The results for any given player over a play session can vary widely from this long-term, expected average in either direction. The fewer the number of games played, the wider the normal variance of actual payback that may be experienced.

The RTP for this game is 92.16%.
