GENIE ALMIGHTY AND THE 3 LUCKY LAMPS

GAME RULES

Welcome to GENIE ALMIGHTY AND THE 3 LUCKY LAMPS Video Slot featuring the CAVE OF WONDERS and GENIE FREE SPINS bonus!

ABOUT THE GAME

GENIE ALMIGHTY AND THE 3 LUCKY LAMPS is a 5 x 3 Video Slot set in an exotic middle eastern bazaar. The game features both ways pays, and 3 LUCKY LAMPS that can turn the centre 3 reels wild. Bonus symbols on reels 1 and 5 award a visit to the CAVE OF WONDERS where the genie's chests await.

3 LUCKY LAMPS

On each spin you have the possibility to activate between 1 and 3 of the LUCKY LAMPS found beneath the reels. When active the lamp will turn the reel above it wild.

When the wilds are active at the end of a spin, they have an enhanced chance of staying in position for the next spin.

The enhanced chance of wilds remaining exposed is active for every subsequent spin that wilds reappear.

The enhanced chance of Lucky Lamp Wilds persisting over subsequent spins is directly linked to the current total bet. If Lucky Lamp Wilds are exposed on any of the 3 relevant reels, and then spin at a different stake, the enhanced chance is lost.

The wild symbols used to help form line wins by substituting for other symbols in the game. They substitute for all symbols except the bonus symbol.

CAVE OF WONDERS

Land Genie Bonus symbols on reels 1 and 5 to trigger the bonus. You will then be taken to the Genie's Cave of Wonders where he keeps magical chests kept on floating rocks. Each chest will either contain a cash prize, a number of free spins, or an increase to the free spins win multiplier. You must open chests and build cash and free spin prizes until you hit the COLLECT item.

Once picking is complete you will have built up two prize pools; a cash prize and free spins with a win multiplier. You will be asked to pick which prize you would like. Picking the cash prize awards the cash and returns to the base game.

Prizes will be between 5 and 15 spins and between x1 and x3 multiplier. Cash prizes will be between x10 and x67 your total bet.

Cave of Wonders best strategy is to take cash in the following scenarios:

- 8 or 10 free spins at x1 - take cash at x18 total stake or above
- 8 free spins at x2 - take cash at x30 total stake or above
- 5 free spins at x3 - take cash at x30 total stake or above

GENIE FREE SPINS

Taking free spins will transport you to the bazaar at night where the spins will play out. The LUCKY LAMPS are in play and the game is a 10 line both ways pays game just like the base game, however there is an increased chance of the lamps activating and turning reels wild.

Once started the free spins will auto-play through the number you have been awarded and your total win will be shown when they are complete.

GETTING STARTED

- Click on the stake selector button to choose your bet. This is the round button with the dollar sign.
- The stake shown is the TOTAL bet and is the bet-per-line multiplied by the number of lines.
- Click on the menu button to access the pay table, which shows the potential winnings for each reel combination and information about the game. The menu button is the round button with 3 lines in it, from here the pay table is opened by pressing the round button with the letter 'i' in it.

HOW TO PLAY

- The reels will spin and stop at random positions.
- If the combination of symbols appearing on the reels forms a line of 3, 4 or 5 matching symbols (starting from either the left or the right) on one of the win lines, then you win. Any winning lines you have will be highlighted and your winnings will be credited to your account balance.
- Land the bonus symbol on reels 1 and 5 to launch the 3 Lucky Pots Bonus, where you can win a cash prize or as many as 15 free spins with a multiplier of up to x3.

REEL WINS

All line wins are derived from the number and value of matching symbols and multiplied by the value of the bet-per-line. All winning lines are added together to form the total win.

Symbols must be on a valid win line and be on consecutive reels either from left to right starting on the far left hand reel, or from right to left starting on the far right hand reel.

Only the highest line win is paid on each line. 5 of a kind wins are only paid in one direction.

GAME RECOVERY

In the event of a game in real play being interrupted, (i.e. started but not completed due to connectivity issues or accidentally closing the browser, etc.), depending on the previous state of the game, it will either resume from the point of the last spin or display the outcome of the game already in play.

Any winnings will be correctly credited to the player account and will be exact according to the result prior to the game being interrupted.

All results are predetermined.
