### SPECIAL SYMBOLS AND FEATURES

#### DYNAMITE WILDS

All types of WILDS substitute for all paying symbols and count as the symbol which forms the longest winning combination on a single win way. Each Dynamite that lands on the reels contributes to the Feature Unlock Progress bar. Each of the four Features is unlocked in a specific order by landing 15 Dynamite Wilds. There are 60 Dynamites in total and Dynamites stop appearing after the final feature has been unlocked.

#### FEATURE UNLOCK PROGRESS

The Feature Unlock Progress bar displayed above the reels consists of four sections, each for one of the four corresponding unlockable features. When Dynamite Wilds land they fill the progress bar of each section. When the bar is full the section is unlocked, the newly available feature is displayed, and further dynamites start filling the next section's bar. Unlocking a feature makes it possible for it to be triggered randomly during a spin on the same stake, and a feature is always triggered on the following spin after being unlocked.

#### TNT

Gathering 15 of 60 Dynamites unlocks the TNT feature. When triggered, all low-paying symbols will be removed for the current spin. Entering GOLD SPINS after the TNT doesn't remove the low-paying symbols for the duration of the bonus round.

#### GOLDEN WILDS

Gathering 30 of 60 Dynamites unlocks the GOLDEN WILDS feature. When triggered, up to ten GOLDEN WILD symbols may land on the middle four reels.

#### MULTIPLIER

Gathering 45 of 60 Dynamites unlocks the MULTIPLIER feature. When triggered, the compass will appear and spin to reveal a multiplier applied to the next win. The possible multipliers are 2x, 3x, 5x and 10x. If the MULTIPLIER is triggered again before a winning spin occurs the revealed multipliers will be stacked up to x20. During Gold Spins, the compass will instead increase the currently accumulated Growing Win Multiplier. If GOLD SPINS is

triggered while having an active multiplier, it is transferred into the bonus round. Any multiplier accumulated during GOLD SPINS resets when the bonus round is over.

#### MEGA WILD

Gathering all 60 Dynamites unlocks the MEGA WILD feature. When triggered, up to four MEGA WILD symbols may land on the middle four reels. MEGA WILDS cover an entire reel and have a multiplier between x2 and x7 applied to all ways which the Wild participates in.

#### GOLD SPINS

The GOLD SPINS symbol is a scatter. Landing three GOLD SPINS symbols anywhere on the reels awards eight GOLD SPINS with each additional symbol increasing that count by +2. Three GOLD SPINS symbols during the GOLD SPINS feature awards four Bonus Spins, with each additional symbol increasing that count by +1.

#### GROWING MULTIPLIER

Each win during GOLD SPINS will increase a Growing Win Multiplier up to x20 that applies on all win ways. The multiplier will reset when the bonus round ends.

#### General types of games

Check the pays menu in the game payable if you are not sure of the game type.

The values related to each symbol, shown either on the slot scene or on the dedicated Symbol Wins pages of the Pays menu, represent stake multipliers and not credits.

If you are playing a Lines game, the prize value from one payline is equal to the total stake divided by the number of paylines, multiplied by the symbol multiplier advertised in the payable. Where multiple wins occur on multiple win lines, the total win values are summed. If more than one win occurs on the same payline, the largest win is paid. Each individual payline can pay only once per spin.

Example: Total stake is 2. Total paylines are 20. Symbol multiplier for length of 5 is 300. The win for 1 payline with this symbol and length would be calculated as such:  $2 / 20 * 300 = 30$ .

If you are playing a Ways, a MegaWays or a Cluster game, the prize value from one way or cluster in a Ways or Winning Clusters game is equal to the stake multiplied by the symbol multiplier advertised in the paytable. Where multiple wins occur on multiple ways or clusters, the total win values are summed.

Example: Total stake = 2. Symbol win multiplier = 2. Win =  $2 \times 2 = 4$ .

During the Free Spins bonus rounds, the game uses a different set of reel strips.

If there is a Scatter Symbol in the game, all wins will be paid in addition to any other symbol wins occurring on the same spin.

Please be aware that each account allows only a single game to be played at any one time. Therefore, a game should not be played on more than one device, or multiple games on the same device simultaneously. Doing so may lead to various errors.

For the best gaming experience, use of the latest version of software is recommended.

Malfunction voids all pays and plays.

## WITH PROGRESSIVES

### **Jackpot Game**

Win one of the offered jackpot tiers when three or more jackpot symbols appear on the reels or the jackpot is triggered by a game feature. Spin the jackpot wheel to determine which of the offered jackpot tiers will be won. The size of the segments on the jackpot wheel do not correlate to the odds of winning each jackpot tier represented. The chances of winning a jackpot increase in correlation with the size of the stake played. The jackpot is triggered randomly and can be won by playing any of the linked jackpot games. To win the jackpot, the player is not required to make any decision other than to spin the reels. The stake value cannot be changed during free spins. Internet connectivity issues may cause delays in jackpot messages or updates, but they do not affect actual jackpot wins. It is not possible for two players to win the same jackpot. In the event two jackpot winnings occur close to one another the jackpot will be assigned in their respective order. Due to connectivity issues the jackpot value displayed may differ from the effective jackpot value. The jackpot could be temporary deactivated, when this occurs all contributions are paused. The jackpot amount available upon reactivation will be the same as before the deactivation.

### **Progressive Jackpot**

The progressive jackpot is accumulated by all stakes on games offering these jackpots and, in some cases, the jackpots may be offered on multiple websites. A percentage of each total bet is added to a common pot. Part of this contribution is used to form the progressively increasing jackpot amounts, and the other part, contributes to a seed fund, which is the minimum amount of money guaranteed to be made available to players after a jackpot is won by qualifying players. Once the jackpot has been won, a new progressive jackpot will be made available and the process repeats. The jackpot can be triggered and won by a single spin from a single user only. This jackpot does not have a ceiling value and can be won at any time. When the jackpot is won by another player, a notification appears in the jackpot panel. Once won, the amount is transferred directly to the user wallet, even if it is won during a bonus spin.

### **Time Jackpot**

The time jackpot is a progressive jackpot which is guaranteed to pay out before a set date and time. The prize pot grows with the contributions from the stake of each spin on a jackpot game, and the closer the prize pot gets to the advertised guaranteed latest payout time, the greater the odds of winning it.

Odds increase up to 100% when the guaranteed latest payout time is reached. Once the jackpot has been won, a new time jackpot will be made available and the process repeats with a new deadline for the next guaranteed payout. The jackpot can be triggered and won by a single spin from a single user only. This jackpot does not have a ceiling but must be won before the date and time specified. When the jackpot is won by another player, a notification appears in the jackpot panel. Once won, the amount is transferred directly to the user wallet, even if it is won during a bonus spin.

### **Dynamic Jackpot Allocation**

Only the first \$2 of a stake is eligible to win the time jackpot.

Stake amounts in excess of \$2 are contributed directly to the progressive jackpot.

### **Daily Drop (time)**

Current starting value is: \$200, Next minimum starting value is: \$200

### **Super Drop (progressive)**
