

Welcome Fortune™

GAME RULES

- This page contains information on how to play this game.
- Please scroll down to read through all topics.

Getting started

- When you start the game, you enter a lobby where you can choose a machine to play this game. Simply click on "Play now" or a vacant machine to begin playing!
- This game is a game for one player - the gameplay of other players does not affect yours. Each game starts when you place a bet and ends when you leave the application.
- Within the lobby, you may recognize other players in the same game by a person sitting at a machine. By clicking such a machine, you are entering "spectator mode" and can watch a different player play. You are not able to influence the game which you are spectating in any way.

Playing

- You choose the total bet per round via the "Total Bet" button.
- The minimum bet per round is \$ 0.50.
- The maximum bet per round is \$ 125.00.
- The "Start" button begins a round of play.
- Each round is independent of previous rounds.
- All game outcomes are independent and randomly determined.
- When you start a round, the bet is deducted from the balance you've paid in.
- At the end of a round, the console displays your win, if any.

Win Lines

- This game has 5 reels and 25 win lines.
- Reels are counted from left to right, with 1 being the leftmost, and 5 being the rightmost reel.
- You can find an overview of the win line pattern via "Paytable & Info".

Autoplay

- Clicking on "Auto" starts automatic spins.
- If "Autoplay" is activated the button label becomes green. Clicking it again stops the automatic spins.
- Autoplay stops automatically when the total bet is higher than your current funds.
- Autoplay stops automatically when a feature is awarded.

Winnings

- Winning combinations and payouts are made according to the paytable.
- Symbol payout values shown in the paytable are dynamic and change in accordance with the selected bet value.
- All prizes are for combinations of a kind, consecutive from left to right on selected lines.
- Highest win only paid on each selected line and per scatter combination.
- Scatter symbols pay regardless of their position.
- Scatter wins, progressive jackpots, SCROLL prizes and line wins are added.

Bonus Symbols

- The Wild symbol substitutes for all symbols except for Scatter and SCROLL symbols to help complete winning combinations.
- 3 or more Scatter symbols appearing anywhere trigger the Free Games Feature.
- 6 or more SCROLL symbols appearing anywhere trigger the Hold and Respin Feature.
- JADE COIN pays in any position.

RTP Range

- The theoretical RTP (return to player) value for this game is 95.16 %.
- The theoretical RTP is calculated as total win/total bet over a large number of games played and reflects the prizes awarded by a game as a percentage of all bets made. The actual RTP can vary widely in either direction for a small number of games due to statistical variance.

Connection Loss

- In case you lose your network connection, the game will proceed to complete the current round of play automatically after a delay of 2 hours absence from the game.
- If you reconnect into the game earlier, you are able to continue playing the current round.
- This includes all settings such as number of lines and bet.
- If this round contains multiple spins (e.g. free games feature), the game will determine your winnings based on the game's expected win values.

Malfunction voids all pays and plays.

The prizes are paid in accordance with the payout table available on the game interface.

Any game in progress for more than 2 hours will be completed and the corresponding prize, if any, will be deposited into the account.

GAME FEATURES

Jackpots

- 1.0 % of every stake goes directly into the jackpots.
- Each jackpot is the sum of its base win plus the contributions from all players to this jackpot.
- The jackpots are initially seeded at 200 / 1000 times your stake (or the equivalent in your account currency if different). When a jackpot is won, it is reset to the seed value.
- GRAND Jackpot and MAJOR Jackpot can be won randomly.
- The GRAND Jackpot is a combination of contributions by all players plus a base win of 1000 times your stake.
- The MAJOR Jackpot is a combination of contributions by all players plus a base win of 200 times your stake.
- Players playing the maximum stake will be eligible to win the total jackpot. Lower staking players will win a proportion of the total jackpot relative to the stake placed.
- The amount you are eligible to win will be shown in the jackpot bank.
- When some or all of a jackpot is won, it is reset to the base win for your stake, plus the current total contributions you are eligible to win.
- It is not possible for two players to win a jackpot simultaneously. In instances of apparent simultaneous wins, the games are time-stamped and the first player to trigger the win is awarded the jackpot.
- Subsequent players will win the reseeded jackpot, plus any new contributions.
- There is no ceiling value for the jackpot.
- The base currency of this game may be different to the currency of your account. When that is the case, the progressive jackpot is shown at its current value in your account currency. That amount may go up or down depending on fluctuations in exchange rates.
- In case this game is withdrawn from our offer, your jackpot contribution will be transferred to other certified games with similar jackpots.

Grand Jackpot Won from Hold And Respin Feature

- The linked GRAND Jackpot amount displayed in the Grand Jackpot Meter is awarded immediately after 15 x SCROLL symbols have been spun up in the Hold and Respin Feature.
