## WILD SYMBOL

Substitutes for all symbols except Bonus Scatter.  
Appears on all reels in the base game and on reels 2, 3, 4 and 5 in the Free Spins Bonus.  
During Free Spins any wild in view will lock in place until the bonus is completed.

## FREE SPINS INFORMATION

Landing 3 or more bonus scatters in view triggers the Big Spin.

A pick me will then be presented for each scatter that landed.

Behind each pick is a number of Big Spins that are to be awarded to the Player.

The number of spins the 'pick me' windows can contain are 1, 2, 3, 4 and 5. The probability of each different Big Spin values being awarded in the bonus feature is not necessarily proportionate to the number of options on offer.

Once a value has been selected Free Spins will begin. Wins greater than or equal to 20x the current bet will decrement the number of Big Spins remaining. Spins less than 20x bet will not decrement the number of Big Spins remaining. The Free Spins will continue until no Big Spins remain.

### FREE SPINS INFORMATION

During Free Spins any wild symbol that lands in view will lock in place and remain in that position until Free Spins have ended.

Reels 2, 3, 4 and 5 award 1 extra spin when they are filled with locked wilds.

Up to 4 extra Big Spins can be awarded during free spins.

### GAMBLE

The gamble can be configured to be on, on if the win is greater than or equal to 5x bet, or off.

If the gamble is on, any winnings awarded during the game will offer the gamble feature. If the gamble is on and if the win is greater than or equal to 5x bet, any winnings greater than or equal to 5x bet awarded during the game will offer the gamble feature. The gamble entry trigger is based on the base bet before any bet multipliers are applied.

When the gamble is entered, two wheels are presented. The left wheel offers the chance to increase the winnings by a half, double the winnings, or triple the winnings.

The right wheel offers the chance to win Big Spins. The win value can be adjusted by pressing the '-' and '+' arrows, this in turn will adjust the winning and losing segments of the wheel.

Press either wheel during the feature to gamble your winnings and spin the pointer.

### GAMBLE

If the pointer stops on the green segment, the cash value or Big Spins are awarded.

If the pointer stops on the red segment, the player loses their winnings and exits to the base game.

When the potential winning area of the gamble wheel is at its minimum size the chance of success could be significantly less than the visual representation shown.

Winnings can be gambled up to a maximum win amount of x2500 base bet or \$500,000.00, whichever is the lower value. Once the maximum win amount is reached, winnings are automatically collected and the gamble will be exited.

A maximum of 5 Big Spins can be achieved in the gamble for Big Spins wheel. Once this is reached, the Big Spins wheel is disabled, while the player is still able to gamble on the Cash wheel.

Press the 'COLLECT' button during the feature to collect your winnings.

The expected payback for the gamble game is 100%

## SPIN CHANCE

Spin Chance is triggered automatically if the credit is reduced below the current price of play, yet is still greater than zero.

Spin Chance offers the player an opportunity to wager their remaining credit in an attempt at winning an additional base game spin at the current bet.

To play Spin Chance, select the 'PLAY' button to begin moving the pointer across the meter.

Alternatively, select the 'NO THANKS' button to exit Spin Chance with the remaining credit.

If the pointer stops on the green segment, a spin at the current bet is awarded and plays automatically.

If the pointer stops on the red segment, the player loses any remaining credit and exits to the base game.

The red and green segments are proportional to the amount of credit in relation to the current bet.

The chance of winning a spin is determined by this ratio.
