

**Hercules High & Mighty™**

Hercules High and Mighty is a 10 symbol high slot featuring Mighty Reels. During Mighty Reels play over 100 lines and win Free Spins!

### **Mighty Reels**

The game plays over the bottom half of the reel for up to 50 lines. When a Hercules symbol appears, the portcullis will rise and the game is played over the full height reel. The game then awards wins up to 100 lines.

### **Free Spins**

The player can win Free Spins in every game. Any part of 3 or more Bonus symbols activate the Free Spins. If in Mighty Reels, Free Spins can be triggered from the top half of the reels.

### **Big Bet**

A Big Bet game consists of 5 linked spins of the reels. In Big Bet spins, any part of Hercules in view will award Mighty Reels. Big Bet games may remove low value symbols which will give bigger wins. Big Bet games may hold Mighty Reels until the end of the game or a win is achieved, increasing the chance of wins over 100 lines.

### **How to Play**

Select your stake - To adjust the STAKE, use the '+' and '-' buttons to increase or decrease the size of your stake per line. Press the green arrow to initiate the game.

### **Win lines**

The game contains up to 100 win lines. The number of win lines in the game increases with stake up to 50 lines.

The number of win lines in the game increases up to 100 lines when in Mighty Reels. All line win amounts are shown in the games pay table as multiplier values. These can be viewed by pressing the "i" button.

## **Rules**

All line pay symbols must appear on a played line and on consecutive reels, beginning with the far left reel.

Only the highest win is paid on each line played.

All line wins are multiplied by the stake per line.

Wins that occur on all selected lines are added to the total win.

Scatter wins are awarded for symbols appearing in any position on the reels for any number of played lines and paid in addition to line wins.

Malfunction voids pays and plays.

## **Expected Payback**

In accordance with fair gaming practices, the outcome of each and every game is completely independent.

The chances of getting a particular outcome are always the same at the start of every game.

At < \$2.00, the expected return for this game is 94.00%.

At  $\geq$  \$2.00, the expected return for this game is 96.00%

The expected return for the BIG BET game is 98.00%.

This reflects the theoretical return across many plays.

Any combination of wins in a single game is limited and will not exceed \$250,000.00.

It may not be possible to reach this limit in a single game from every stake configuration.
