After selecting the desired bet configuration, press **AUTO SPIN**, and choose how many spins to play at the current bet settings.

Winner's Circle Bonus

Get 3 or more Winner's Circle Bonus symbols anywhere on the reels to trigger the *Winner's Circle Bonus*. The Winner's Circle Pyramid allows you to build up the number of free spins and the size of the bonus multiplier that you will enjoy in the *Free Spins Bonus*.

You start off with a free spins count of 2, a bonus multiplier of 1x and a pick count of 5 in the Winner's Circle Pyramid. Begin the bonus by clicking any spot on the lowest level of the Pyramid. A spot may contain either a number of additional free spins or a multiplier boost value. It may sometimes also contain an extra pick or an advance arrow that takes you to the next level of the Pyramid. You may keep picking until you run out of picks or you reach the top of the Pyramid. When you can pick no more spots, the Pyramid will reveal the remaining spots (which are not earned).

Triggering the *Winner's Circle Bonus* with 4 or 5 Winner's Circle Bonus symbols respectively increases the number of advance arrows and extra picks available.

Free Spins Bonus

After you finish picking and the Pyramid is revealed, you go to the *Free Spins Bonus*. In the *Free Spins Bonus*, you get to play your free spins on the super rich bonus reels with the multiplier you earned. All pays are multiplied by your bonus multiplier except for the top award (Wild-Wild-Wild-Wild-Wild). 3 or more Winner's Circle symbols award a scatter pay instead of triggering another bonus.

Rules

Misuse or malfunction voids all pays and plays.

All line win symbols must appear on a played line and on consecutive reels, beginning with the far left reel.

Only the highest winner is paid on each payline. Line wins are multiplied by the line bet on the winning line. Coinciding line wins on different paylines are added.

Only the highest scatter win is paid.

Scatter wins are independent from line wins and are added to the total amount paid.

Bonus wins are independent from line wins and are added to the total amount paid.

Wins are shown in currency.

The prizes are paid in accordance with the payout table available on the game interface.

In some jurisdictions, regardless of bet size, there is an award cap on any single

transaction. See the paytable for details. A transaction includes the results of the *Free Spins Bonus*, plus the outcome which launched the bonus. If the award cap is reached in the bonus, the bonus ends immediately, even if there are remaining free spins.

Additional Information

In addition to the features described in the How to Bet section, the Controls Bar on the bottom of the game screen displays the current balance in the chosen currency, the amount paid if a win occurs, and the amount bet on the last/current proposition.

Interrupted Game

In the event of disconnection, an interrupted bonus feature may be resumed immediately by starting the game again. The results of a completed reel spin (where display of the visual result was interrupted) will not be re-displayed within the game but may be reviewed in My History.

Any amount wagered on an unfinished spin will remain paused until you either complete the game or the game is void as a result of account inactivity or system maintenance. When an unfinished spin is void, your bet will be refunded to your account. Any awards earned on an unfinished spin/bonus feature will not be credited unless you resume and complete the game.

Any game in progress for more than 30 days will be cancelled, and the corresponding bet will be refunded.

Game History

The result of a completed game may be viewed in [My History](#) immediately after closing the game window. Results of unfinished games are not displayed in My History.

Expected Payback

In accordance with fair gaming practices required in most legal jurisdictions worldwide, each and every game outcome is completely independent. The odds of getting any particular outcome are always the same.

The odds do not vary based on prior outcomes, bet size, balance size, time of day, day of week, etc. For example, if the top award is won on a given play of the game, the chances of winning the top award on the next play are exactly the same. Likewise, prior losses do not change future odds.

The expected payback reflects the theoretical return across a very large number of plays by numerous players over an extended period of time. For this game type, the long-term theoretically expected payback is 92.78% to 95.03%. The results for any given player over a play session can vary widely from this long-term, expected average in either direction. The fewer the number of games played, the wider the normal variance of actual payback that may be experienced.
