

Crown of Egypt

Introduction

Travel back in time to ancient Egypt in search of exotic riches! ***Crown of Egypt*** features both payline awards and *MultiWay* awards, so every spin offers amazing win potential! 20 independent reels provide nearly limitless symbol combinations!

How to Bet

Crown of Egypt features 40 paylines plus 1024 Ways. Each payline costs 1 coin. Activate 1024 Ways by betting 40 additional coins.

Bet Configuration Menu (mobile/tablet/mini games)

Press the arrow to open the bet configuration menu.

Press the check mark to confirm and close the bet configuration menu.

Lines + 1024 Ways

Displays current number of paylines selected, and whether 1024 Ways are activated. Press the minus button (-) to decrease the number of paylines played and to disable 1024 Ways.

Press the plus button (+) to increase the number of paylines played and to activate 1024 Ways.

Choose between 1, 10, 20, 40 paylines, or 40 paylines plus 1024 Ways activated. 1024 Ways may only be activated when playing 40 paylines.

Coin Value

Displays the current coin value shown in currency.

Press the minus button (-) to decrease the coin value.

Press the plus button (+) to increase the coin value.

Spin

Press the circular arrow to submit the bet and spin the reels.

Auto Spin Feature

Auto Spin plays the game automatically for a given number of spins at the current coin value, number of paylines selected, and Ways selected.

For UK jurisdictions where Auto Spin is enabled: Select the number of auto spins, the loss limit, and the (optional) single win limit.

After selecting the desired bet configuration, press **AUTO SPIN**, and choose how many spins to play at the current bet settings.

Auto Spin plays the specified number of spins until **STOP** is pressed, a bonus is triggered, the balance is insufficient to spin, or any enabled win/loss limit settings are reached.

Auto Spin is only available in approved jurisdictions.

Auto Spin is not available in mini format.

MultiWay Feature

With the **MultiWay** feature, there are 1024 ways to win on every spin. **MultiWay** symbol wins pay for matching symbols in any position in adjacent columns, starting from the leftmost column. More than one matching symbol in the same column multiplies the win. The Wild symbol substitutes for all symbols except for the Bonus symbol.

Example of a **MultiWay** payout:

The following diagram shows a sample reel outcome, using the Falcon symbol. Because there is at least one Falcon or Wild symbol in each of the first four columns, the player wins on 4 Falcon symbols, which pays 40 coins per way.

Payout example: 1 x 2 x 2 x 1 Falcons → 4 winning ways:

Column 1	Column 2	Column 3	Column 4	Column 5
	Falcon			
Falcon		Falcon	Falcon	
	Wild			
		Wild		
1 Falcon	2 Falcons	2 Falcons	1 Falcon	

To determine the payout for this combination:

1. Count the number of Falcon and Wild symbols in each column.
2. Calculate the total number of winning ways ($1 \times 2 \times 2 \times 1 = 4$).
3. Calculate the win amount in currency by multiplying the win (40 coins) by the coin value. For example, if the coin value is 0.10, then the win is 4.00 (40×0.10).
4. The total pay is the win value times the total number of winning ways ($4.00 \times 4 = 16.00$).

The win message is: MultiWay Win Pays: 4.00 X 4.

The actual amount won in currency is based on the coin value.

Free Spins Bonus

Two or more Bonus symbols in the middle column trigger the *Free Spins Bonus*. The more Bonus symbols that appear at the same time, the more free spins awarded. See the payable for details.

During the *Free Spins Bonus*, two or more Bonus symbols in the middle column retrigger the bonus. The *Free Spins Bonus* continues until 0 spins remain, until 130 free spins have been played, or until the maximum award cap is reached.

The bet in the *Free Spins Bonus*, including 1024 ways activation, is the same as on the reel spin that triggered the bonus.

The *Free Spins Bonus* has richer reels than the main game.

Rules

Misuse or malfunction voids all pays and plays.

All line win symbols must appear on a played line and on consecutive reels, beginning with the far left reel.

Only highest winner paid on each payline. Line wins are multiplied by the coin value on the winning line.

Coinciding wins on different paylines are added. **MultiWay** wins (only available when 1024 Ways activated) are independent from payline wins and are also added to the total amount paid.

MultiWay wins are formed when the same symbol (or its substitute) appears on contiguous columns starting with the left-most column.

MultiWay wins are multiplied by the coin value.

Wins are shown in currency.

Wild appears in columns 2, 3, 4, and 5 only.

Bonus appears in column 3 only.

The prizes are paid in accordance with the payout table available on the game interface.

Any game in progress for more than 30 days will be cancelled, and the corresponding bet will be refunded.

In some jurisdictions, regardless of bet size, there is an award cap on any single transaction. See the payable for details. A transaction includes the results of the *Free Spins Bonus* plus the outcome which launched the bonus. If the award cap is reached in the bonus, the bonus ends immediately irrespective of any remaining free spins.

Additional Information

Expected Payback

In accordance with fair gaming practices required in most legal jurisdictions worldwide, each and every game outcome is completely independent, except in cases where one

spin unlocks a feature for a subsequent spin or series of spins, per the game rules. The odds of getting any particular outcome are always the same.

The odds do not vary based on prior outcomes, bet size, balance size, time of day, day of week, etc. For example, if the top award is won on a given play of the game, the chances of winning the top award on the next play are exactly the same. Likewise, prior losses do not change future odds.

The expected payback reflects the theoretical return across a very large number of plays by numerous players over an extended period of time. For this game type, the long-term theoretically expected payback is 92.90% without 1024 ways enabled and 95.03% with 1024 ways enabled. The results for any given player over a play session can vary widely from this long-term, expected average in either direction. The fewer the number of games played, the wider the normal variance of actual payback that may be experienced.
