Game Objective

Side Bet City is a poker game in which you can bet on a 3 Card Hand, 5 Card Hand or 7 Card Hand or, if you believe that none of these hands will win, on All Lose. The game objective is to get the best possible hands.

Game Rules

An unlimited number of players can play simultaneously at one Side Bet City table.

The game is played with one standard 52 card deck. Only one game is played with one deck of cards, and cards are shuffled after each game round.

To play the game place your bet on any of the following bet spots: 3 Card Hand, 5 Card Hand, 7 Card Hand and All Lose.

The dealer will deal 7 cards altogether. The first 3 cards will determine the result of the 3 card hand, the first 5 cards will determine the result of the 5 card hand and the 7 card hand is determined based on all 7 cards dealt with best 5 cards out of the 7 taken into account. If you have placed your bet on any of these hands and it wins, the winning message with your winnings will appear. If you have placed your bet on the All Lose option and none of the 3 Card, 5 Card or 7 Card Hand wins, you win on the All Lose bet, regardless if you had placed a bet on the 3 card hand, 5 card hand or the 7 card hand.

3 Card Hand

Dealer deals the first three cards, revealing the result for the 3 Card Hand:

Pair

If you have placed your bet on the 3 Card Hand, and it wins, a winning message will appear.

5 Card Hand

Dealer deals next the two cards, revealing the result for the 5 Card Hand:

Four of a Kind

If you have placed your bet on the 5 Card Hand, and it wins, a winning message will appear.

7 Card Hand

Dealer will deal the last two cards, revealing the result for the 7 Card Hand:

If you have placed your bet on the 7 Card Hand, and it wins, a winning message will appear.

All Lose

If you have placed your bet on the All Lose bet spot and none of the 3 Card, 5 Card or 7 Card Hands has won, you win, even if you had not placed a bet on the 3 Card Hand, 5 Card Hand or 7 Card Hand bet spots.

PLACE YOUR BETS

The CHIP DISPLAY allows you to select the value of each chip you wish to bet. Only chips of denominations that can be covered by your current balance will be enabled.

Once you have selected a chip, place your bet by simply clicking/tapping the appropriate betting spot on the game table. Each time you click/tap the betting spot, the amount of your bet increases by the value of the selected chip or up to the maximum limit for the type of bet you have selected. Once you have bet the maximum limit, no additional funds will be accepted for that bet, and a message will appear above your bet to notify you that you have bet the maximum.

NOTE: Please do not minimise your browser or open any other tab in your browser while betting time remains, and you have placed bets on the table. Such actions may be interpreted as leaving the game, and your bets will therefore be declined for that particular game round.

The REPEAT button allows you to repeat all bets from the previous game round. This button is available only before the first chip is placed.

 REPEAT

The DOUBLE (2x) button becomes available after you have placed any bet. Each click/tap doubles all your bets up to the maximum limit. Note that you must have a sufficient account balance to double ALL your placed bets.

The UNDO button removes the last bet you placed.

UNDO ↺

You can click/tap the UNDO button repeatedly to remove bets, one by one, in the reverse order of which they were placed. You can clear all your bets by holding the UNDO button.

The TOTAL BET indicator displays the total amount of all bets placed in the current round.

Once you have placed a bet, Autoplay allows you to repeat your selected bet or bets for a chosen number of game rounds.

To start Autoplay, place your bets on the betting grid as usual and then click/tap the Autoplay button.

⟳

The Autoplay panel will then open, and from here you simply select the number of game rounds you would like your bet to be repeated in. Then click/tap START to Autoplay.

⟳ 10

You can keep track of the number of Autoplay rounds remaining as they are displayed in an indicator on the Autoplay button.

Your Autoplay limit will be displayed in the Autoplay panel. (Example: a total bet of $200 made on the betting grid followed by x10 Autoplay rounds selected by you = Autoplay limit of $2000.)

Your automatic game rounds will continue until either your chosen number of Autoplay rounds is complete, or you choose to stop Autoplay.

◾ STOP

You can end Autoplay at any time by simply stopping Autoplay.

Placing additional bets on the betting grid or doubling your bets while Autoplay is running will also stop Autoplay.

You and other players will be notified via Chat, or by an on-screen pop-up message, that the issue is being investigated. If the manager can immediately resolve the error, the game round will continue as normal. If immediate resolution is not possible, the game round will be cancelled, and initial bets will be refunded to all players who participated in the game round.

More Games

The LOBBY button (if applicable) can be selected at any time from any game.

> **LOBBY**

It allows you to easily change game table or select any other live game. You will not be removed from this game until you have actually selected the new game/table you wish to join. You can use the LOBBY to browse other games while still playing in your current game.

Multi-Game Play

If you enjoy non-stop action, you can join up to four different game tables simultaneously and view them all in the same browser window!

After you have joined at least one game table, click on LOBBY. In the lobby or game, click the +TABLE button associated with that table to join it. (Certain tables may be unavailable for multi-game play and will therefore not display a +TABLE button.)

> **+ TABLE**

After you have joined multiple tables, you will be able to resize your browser window as a whole, but you will not be able to resize each game table window separately.

You can exit any table without affecting your presence at other tables you have joined. To exit a table, click the X button.

Please note:

- You will exit a table automatically if you join the same table through a different device/browser.
- If you click directly on a table icon instead of the +TABLE button, you will merely *switch* tables instead of joining the chosen table *in addition* to the table you joined previously.

We kindly advise you to join only as many tables as your screen can accommodate while still allowing you to place bets deliberately and accurately.
