RULES

All prizes are for combinations of a kind. Symbols pay from left to right and must be consecutive. Free Games cannot be won again during the feature. All wins pay only on lines in play. Highest win only paid per selected line. Line wins are added. The paytable always shows the prizes for the currently selected bet and number of lines. With your current stake, a maximum of $ 500.00 can be bet while gambling. For higher wins or during autoplay, gambling is not possible. The minimum possible bet is $ 0.25. The theoretical RTP is 95.18 %. All game outcomes are independent and randomly determined. The actual RTP is calculated as Total Win / Total Bet over a large number of games played and reflects the prizes awarded by a game as a percentage of all bets made. The expected RTP can vary widely in either direction for a small number of games due to statistical variance. Malfunction voids all pays and plays.
