Floating Reels Feature

On any winning symbol combination during base game and Free Spins Bonus game play:

1. All winning symbol combinations are evaluated and award values are added to the win meter.
2. All symbols in winning combinations burst.
3. Empty spaces are filled as symbols rise from below, in sequence.
4. The reels are evaluated again for winning symbol combinations and values are added to the win meter.
5. The Floating Reels Feature repeats until no winning symbol combinations are created as a result of new symbols rising from below.

Star Multiplier Feature

Each Star scatter symbol awards a random 2x, 3x, or 5x multiplier, and pays a scatter win. If two or more Star scatter symbols appear during a single spin and/or as a result of the Floating Reels Feature during the spin, the multiplier values are added. After awarding a multiplier, the Star scatter symbol pops causing symbols to rise from below for more chances to win. At the end of the spin, the total win amount is multiplied by the total multiplier value.

Free Spins Bonus

The Free Spins Bonus is triggered by getting three Bonus scatter symbols anywhere on the first three reels. These symbols are only found on reels 1, 2, and 3.

Pop one of the three balloons from the Pop-Me picker to reveal the number of free spins (between 4 and 14) awarded for the bonus.

The reels in the Free Spins Bonus have a richer, more frequent Star Multiplier Feature than the base game reels. There are no Bonus scatter symbols on the Free Spins Bonus reels,

therefore the bonus cannot be retriggered.

Free spins are played at the same line bet as the triggering spin.

Options

Graphics Quality

Adjust the quality of the graphics to get the optimal animation performance.

- BEST mode - Highest quality graphics, but performance may suffer.
- HIGH mode (default) - Balance graphics and performance setting.
- MEDIUM mode - Lower quality but increased performance.
- LOW mode - Minimal graphics, but smoothest animation performance is achieved even on slower computers.

Rules

Misuse or malfunction voids all pays and plays.

All line win symbols must appear on a played line and on consecutive reels, beginning with the far left reel.

Only the highest winner is paid on each payline.

Line wins are multiplied by the bet on the winning line. Coinciding line wins on different paylines are added.

Each Star scatter symbol pays independently.

Star scatter symbol wins are multiplied by the line bet. Coinciding scatter wins from different scatter symbols are added.

Scatter wins are independent from payline wins and are added to the total amount paid.

Multipliers from all Star scatter symbols appearing during a single spin, and/or as a result of the Floating Reels Feature during the spin, are added and applied to all wins accumulated during the spin.

Bonus scatter symbol appears on reels 1, 2, and 3 in the base game only. Bonus scatter symbol wins are multiplied by the total bet.

Wild symbol appears on reels 2, 3, and 4 only.

Star scatter symbol appears on reels 1, 2, and 3 only.

Wins are shown in currency.

The prizes are paid in accordance with the payout table available on the game interface.

Regardless of bet size, there is an award cap on any single transaction. See the paytable for details. A transaction includes the results of the Free Spins Bonus, plus the outcome which launched the bonus. If the award cap is reached in the bonus, the bonus ends immediately, even if there are remaining free spins.

Any game in progress for more than 30 days will be cancelled, and the corresponding bet will be refunded.

Additional Information

Expected Payback

In accordance with fair gaming practices required in most legal jurisdictions worldwide, each and every game outcome is completely independent. The odds of getting any particular outcome are always the same.

The odds do not vary based on prior outcomes, bet size, balance size, time of day, day of week, etc. For example, if the top award is won on a given play of the game, the chances of winning the top award on the next play are exactly the same. Likewise, prior losses do not change future odds.

The expected payback reflects the theoretical return across a very large number of plays by numerous players over an extended period of time. For this game type, the long-term theoretically expected payback is 94.33%. The results for any given player over a play session can vary widely from this long-term, expected average in either direction. The fewer the number of games played, the wider the normal variance of actual payback that may be experienced.
