SPECIAL SYMBOLS AND FEATURES

MEGAWAYS™

The number of possible win ways varies per spin according to the total number of individual symbols which land on the reels, with a maximum potential of 321,489 MegaWays™ to win!

CHAIN REACTION

Symbols forming wins disappear, making way for new symbols to drop in that may form new wins.

FAN SYMBOLS

The Fan symbols are special scatter symbols that may land only on the topmost and bottom-most rows. Fan symbols may also appear after a cascade following a win, but again only on the topmost and bottom-most rows. More than one Fan symbol may land in the initial spin on each of those rows. When 2 Fan symbols align on the same reel vertically, they unfold on the whole reel and reveal either a random super symbol variation of a paying symbol or the WILD Super Symbol. The revealed symbol has a ways multiplier from 4x to 9x.

In the normal game the Fans will lock and reveal a random new symbol on each spin until they reveal a symbol that participates in a win. If the Fans reveal a WILD Super Symbol it stays on the reels until it participates in a win instead of being swapped on each spin. If more than one pair of Fan symbols are on the screen at the same time they will all reveal the same type of symbols.

In FREE SPINS the fans that have revealed a symbol will stay locked until the end of the bonus round and reveal a new symbol on each spin. Again, WILD Super Symbols will not be replaced by other symbols before they have participated in a win. Also in FREE SPINS, if the symbol revealed by the fans participates in a win way, the symbols are destroyed and the fans show a new symbol in the following cascade.

WILD SUPER SYMBOL

The WILD Super Symbol may only be revealed by the Fan symbols and it is not swapped until it participates in a win way. The WILD Super symbol substitutes for all paying symbols and also features a ways multiplier of between x4 and x9.

FREE SPINS

3 FREE SPINS scatters anywhere on the reels award with 10 FREE SPINS. FREE SPINS scatters may also land during FREE SPINS, but only on reels 1 and 6. Each FREE SPINS scatter during the bonus round awards +1 Bonus spin.

The FREE SPINS bonus round starts with a x1 WIN MULTIPLIER and each win increases it by +1 up to a maximum of x20. The multiplier is applied to all wins during the bonus round. The WIN MULTIPLIER does not reset for the duration of FREE SPINS.

During FREE SPINS the Fans that have revealed a symbol do not leave the reels after the symbol revealed by them participates in a win way and instead stay locked until the end of the bonus round to reveal a new symbol on each spin. All symbols revealed by the Fans including the WILD Super Symbols leave the slot scene at the end of the bonus round regardless of whether they have participated in win way or not during the last FREE SPIN.

General types of games

Check the pays menu in the game payable if you are not sure of the game type.

The values related to each symbol, shown either on the slot scene or on the dedicated Symbol Wins pages of the Pays menu, represent stake multipliers and not credits.

The prize value from one payline is equal to the total stake divided by the number of paylines, multiplied by the symbol multiplier advertised in the payable. Where multiple wins occur on multiple win lines, the total win values are summed. If more than one win occurs on the same payline, the largest win is paid. Each individual payline can pay only once per spin.

Example: Total stake is 2. Total paylines are 20. Symbol multiplier for length of 5 is 300. The win for 1 payline with this symbol and length would be calculated as such: $2 / 20 * 300 = 30$.

The prize value from one payline in a Multiline game is equal to the stake multiplied by the symbol multiplier advertised in the payable. Where multiple wins occur on multiple win lines, the total win values are summed. If more than one win occurs on the same payline, the largest win is paid.

Example: Stake is 2. Symbol multiplier for length of 5 is 20. The win for 1 payline with this symbol and length would be calculated as such: $2 * 20 = 40$.

The prize value from one way or cluster in a Ways or Winning Clusters game is equal to the stake multiplied by the symbol multiplier advertised in the payable. Where multiple wins occur on multiple ways or clusters, the total win values are summed.

Example: Total stake = 2. Symbol win multiplier = 2. Win = $2 * 2 = 4$.

If there is a Scatter Symbol in the game, all wins will be paid in addition to any other symbol wins occurring on the same spin.

WITH PROGRESSIVES

Jackpot Game

Win one of the offered jackpot tiers when three or more jackpot symbols appear on the reels or the jackpot is triggered by a game feature. Spin the jackpot wheel to determine which of the offered jackpot tiers will be won. The size of the segments on the jackpot wheel do not correlate to the odds of winning each jackpot tier represented. The chances of winning a jackpot increase in correlation with the size of the stake played. The jackpot is triggered randomly and can be won by playing any of the linked jackpot games. To win the jackpot, the player is not required to make any decision other than to spin the reels. The stake value cannot be changed during free spins. Internet connectivity issues may cause delays in jackpot messages or updates, but they do not affect actual jackpot wins. It is not possible for two players to win the same jackpot. In the event two jackpot winnings occur close to one another the jackpot will be assigned in their respective order. Due to connectivity issues the jackpot value displayed may differ from the effective jackpot value. The jackpot could be temporary deactivated, when this occurs all contributions are paused. The jackpot amount available upon reactivation will be the same as before the deactivation.

Progressive Jackpot

The progressive jackpot is accumulated by all stakes on games offering these jackpots and, in some cases, the jackpots may be offered on multiple websites. A percentage of each total bet is added to a common pot. Part of this contribution is used to form the progressively increasing jackpot amounts, and the other part, contributes to a seed fund, which is the minimum amount of money guaranteed to be made available to players after a jackpot is won by qualifying players. Once the jackpot has been won, a new progressive jackpot will be made available and the process repeats. The jackpot can be triggered and won by a single spin from a single user only. This jackpot does not have a ceiling value and can be won at any time. When the jackpot is won by another player, a notification appears in the jackpot panel. Once won, the amount is transferred directly to the user wallet, even if it is won during a bonus spin.

Time Jackpot

The time jackpot is a progressive jackpot which is guaranteed to pay out before a set date and time. The prize pot grows with the contributions from the stake of each spin on a jackpot game, and the closer the prize pot gets to the advertised guaranteed latest payout time, the greater the odds of winning it.

Odds increase up to 100% when the guaranteed latest payout time is reached. Once the jackpot has been won, a new time jackpot will be made available and the process repeats with a new deadline for the next guaranteed payout. The jackpot can be triggered and won by a single spin from a single user only. This jackpot does not have a ceiling but must be won before the date and time specified. When the jackpot is won by another player, a notification appears in the jackpot panel. Once won, the amount is transferred directly to the user wallet, even if it is won during a bonus spin.

Dynamic Jackpot Allocation

Only the first \$2 of a stake is eligible to win the time jackpot.

Stake amounts in excess of \$2 are contributed directly to the progressive jackpot.

Daily Drop (time)

Current starting value is: \$200, Next minimum starting value is: \$200
